This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

INDEX.

IMPORTANT NOTICE—The following index to the 1915 Brooklyn Eagle Almanac has been entirely revised and rearranged according to the most up-to-date library and encyclopedic indexing methods. A straight alphabetical arrangement has been followed in order to facilitate quick and easy reference to any subject.

CAUTION—In using this index, disregard such geographical titles as, for example, "Kings County Sheriff" and look only for "Sheriffs," where will be found the page numbers for each of the local county sheriffs offices. Similarly, the "Metropolitan Museum of Art," will be found under "Museums"; the "New York State Barge Canal" will be found under "Canal," and also cross-indexed under "Barge." Likewise, the "United States Department of Agriculture" at Washington will be found under "Agriculture," etc., etc.

SPECIAL NOTICE Regarding Societies and Associations—Owing to the thousands of organizations about which detailed information is contained in the Eagle Almanac, it is obviously impossible to index each under its individual title. For quick reference, all these organizations have been grouped or classified under chapter headings according to the general purpose or function of the society. Consult the following list of these chapters for the KIND of organization you are looking for. For example: The "American Seamen's Friend Society" is classified under "Hospitals, Homes and Societies for Relief," and is found with the Manhattan list of those devoted to "Special Relief." Similarly, the "Froebel Society of Brooklyn," is classified in the "Literary Societies" chapter under the Brooklyn list.

N. Y. CITY'S RAPID TRANSIT BONDS.

Of the City's rapid transit bonds, $47,482,725.18 have been exempted by the Appellate Division in accordance with the provisions of the State Constitution. The lessee of the subway is now paying interest and annual installments to the Sinking Fund on $51,651,288. Consequently, of the total bonds outstanding, over $51,650,000 are self-carrying.

A conservative approximation of the total amount of self-carrying bonds based on actual figures and careful estimates, would indicate that there are from $237,000,000 to $240,000,000 of these which can be so regarded.

The interest on bonds issued for schools and sites, libraries and sites, City parks and places, bridges, streets, public buildings—including hospitals, charities, health, fire, police, correction, etc.; streets, highways; to cover deficiencies in tax collections, collections, etc., is provided for by annual tax levy together with the annual installments required to amortize and ultimately redeem the principal of such bonds. (See Budget, pages 481-494.)

COMMITTEE ON UNEMPLOYMENT.

Elbert H. Gary was appointed chairman of a Committee on Unemployment and Relief, by Mayor Mitchel, on Dec. 2, 1914. The organization at the beginning of the year 1915 was busily engaged on plans of relief for the needy and considering better methods of co-operation between charity organizations and the city.

THE BROOKLYN EAGLE ALMANAC.

VOLUME XXX. JANUARY, 1915. NO. 1 OF EAGLE LIBRARY

THE 1915 EAGLE ALMANAC AND ITS FEATURES.

WITH the publication of this volume THE EAGLE ALMANAC reaches its thirtieth issue. The reader will note that a general improvement has been made throughout the book. Its various divisions have been carefully arranged, new type has been used and the pages have been enlarged.

The price of the ALMANAC has been increased to $1.00. The edition of an annual of this character is necessarily limited, and to those who use the book the price charged is certainly a reasonable one.

Among its features the ALMANAC contains a review of the Democratic administration, of the new Federal Reserve Banking system, the War in Mexico, the European War, a review of the troubles of the New York, New Haven and Hartford Railroad Company, the New York State Workmen's Compensation Law, local and State Elections, the Panama Canal, the Colorado Mines Strike, the revised New York State Banking Law, a review of the home rule situation in Ireland, and local and general chronology and necrology. The sporting and financial, as well as church, school and society and association chapters will be found complete and accurate.

THE EAGLE has maintained throughout the year its high standard of excellence, increasing steadily in circulation and popularity and in volume of advertising. A Spelling Bee, held at the Academy of Music, under the auspices of THE EAGLE, proved a popular success; children from the public and parochial schools participated. Largely through the efforts of THE EAGLE, many Brooklynites who were in Europe during the war were given valuable assistance.

Through the EAGLE INFORMATION BUREAU special numbers, Eagle Libraries, directories on summer, winter and health resorts in America and Europe, on educational institutions and apartment houses were published.

To those who have assisted in the production of the ALMANAC by correcting or verifying the information slips directed to them, the editor desires to offer his most cordial thanks. THE EDITOR.

LIGHT AND POWER IN THE EAGLE BUILDING.

WHEN the new Eagle Building was erected in 1904, the original plans contemplated the generation of the necessary electric current by engines and dynamos on the premises. A further and complete investigation, however, prior to the purchase of the dynamos convinced THE EAGLE that it would be a more advantageous method of operation to obtain driving energy from the Edison Electric Illuminating Company of Brooklyn.

Accordingly, THE EAGLE entered into a contract with the Edison Company for a complete light and power service. The elevators were changed over from hydraulic to electric, and all of the typesetting, printing, stereotyping and bookbinding machines were equipped with direct connected electric motors, eliminating steam absolutely, excepting during the winter months, when it is used at low pressure for heating.

Economy was the controlling reason that governed THE EAGLE in the making of this contract. The management became convinced that it could buy electric energy from the Edison Company cheaper than it could be generated in an isolated plant on the premises. Reliability of Edison service was also a determining factor, for it can readily be appreciated in the case of a daily newspaper whose time of going to press is calculated to a nicety in order to make accurate connections with an extensive delivery system, that any interruption of power, even for a few minutes, would be a very serious contingency to be most carefully guarded against.

Edison service has time and again during its ten years installation in The Eagle Building proved conclusively not only its economy and reliability but its adaptability to every phase of mechanical newspaper operation.

BOROUGH OF BRONX STREET AND AVENUE DIRECTORY

The following resolution, adopted by the Board of Aldermen March 21, 1882, and approved by the Mayor March 28, 1882, will explain the plan of numbering the streets north of Harlem River: That Willis Avenue be numbered, commencing at the Harlem River, and that said numbering run continuously through Willis, Melrose and Webster avenues. That all other avenues in the Twenty-third and Twenty-fourth Wards, having a generally northerly and southerly direction, be given the same number at the cross street nearest their southern terminus as that on Willis, Melrose, and Webster avenues at the intersection of said cross street, and then numbered accordingly.

The prefix West is given to all cross streets in the Twenty-third and Twenty-fourth Wards lying west of Jerome av., which runs from Harlem River at Macomb's Dam Bridge to City line, and that the prefix East is given to all cross streets lying east of said avenue and the Harlem River.

The letters and numbers following names indicate position of the thoroughfare on the Almanac map.

ASTRONOMICAL CALCULATIONS, 1915

Prepared expressly for the EAGLE ALMANAC by Berlin H. Wright, Lake Helen, Fla.

ERAS OF TIME.

The Gregorian year 1915 corresponds to the following eras: Latter part 139th year and beginning of 140th year of the Independence of the U. S. The year 7423-24 of the Byzantine era, year 7423, beginning Sept. 1. The year 8024 of the Greek Church, beginning Jan. 14. The year 5673-76 of the Jewish era; year 5676 begins at sunset Sept. 8. The year 1333-34 of the Mohammedan era; year 1334 begins Nov. 9. The year 6628 of the Julian period, and Jan. 1, 1915, is the 2,420,449th day since the beginning of the Julian period.

CHRONOLOGICAL CYCLES

Dominical or Sunday Letter, C; Epact (Moon's Age, Jan. 1), 14; Lunar Cycle or Golden Number, 16; Solar Cycle, 20; Roman Indiction, 13; Dionysian Period, 244.

For full explanation of origin and uses, see previous editions of this ALMANAC.

THE SEASONS—Central Standard Time.

SATURN'S RINGS.

The wonderful ring system of Saturn may be seen in 1915 to a better advantage than will be the case again in 14 years. These rings are inclined about 28° to the earth's orbit and about every 15 years are presented edgewise to us and are invisible.

ECLIPSES.

There will be two eclipses this year, both of the Sun, as follows: Annular, Feb. 14, invisible in America, and Annular, Aug. 10-11, invisible in America.

NOTE—All eclipses occur in series, the first one of which will take place at one of the poles and the last at the opposite pole. The whole number in a series of lunar eclipses covers a period of about 865 years, and of the solar about 1300 years. Two is the least number possible in one year, when both must be of the Sun. Seven is the greatest number that can occur in one year, when five will be of the Sun and two of the Moon.

PLANETS BRIGHTEST OR BEST SEEN, EVENING AND MORNING OR ALL-NIGHT STARS AND INVISIBLE.

MERCURY will be brightest as an evening star Feb. 1-7, and Sept. 27 to Oct. 5, setting about 1h. 15m. after the Sun; also as a morning star March 16-28 and Nov. 8-10, rising at the beginning of the morning twilight. Invisible at all other times.

VENUS will be brightest Jan. 1-10 as a morning star and continues such until she becomes invisible the latter part of August. When next visible, in Sept., she will be on the other (east) side of the sun as an evening star, and so continues to the end of the year.

MARS will be a morning star until Nov. 9, and then an evening star the remainder of the year, being invisible at the first of the year and best seen at the end.

JUPITER will be an evening star until Feb. 24, then a morning star until June 19, and an evening star the remainder of the year. It will be invisible in Feb. and March.

SATURN will be an evening star until June 27, or as long as visible, and then a morning star to Oct. 10; then an evening star the remainder of the year, being nearly an all-night star at the first and last of the year and invisible in June and July.

According to the best astronomers the number of stars that can be seen by a person of average eyesight is only about 7,000. The number visible through the telescope has been estimated by J. E. Gore at 70,000,000, and by Profs. Newcomb and Young at 100,000,000.

SUMMER'S HOTTEST PERIOD.

Dog days is the name now applied to the hottest period of our summer, now considered to run from July 3 to August 11, inclusive. Old superstition connected Sirius, the Dog Star, also Procyon, the Lesser Dog Star, with this period. Harvest Moon, the full moon nearest Sept. 1. Hunter's Moon, the full moon following Harvest Moon. At these times the full moon rises nearly at the same hour for several evenings, in northern latitudes. A halo or "sun dogs," large circles, or parts of circles, appearing about the sun or moon after fine weather, generally indicates a storm.

MOHAMMEDAN CALENDAR.

The Year 1334 is the 14th year of the 45th Cycle of 30 Years.

ASTRONOMICAL CALCULATIONS—*Continued.*

TO OBTAIN CORRECT TIME BY THE SUN, MOON, PLANETS OR STARS.

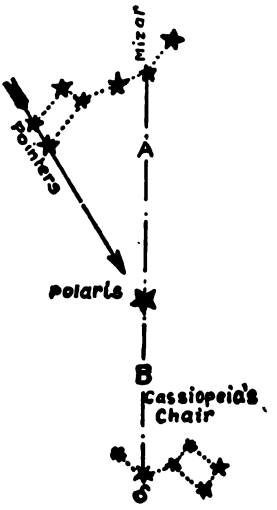

TABLE I.—Begin to watch plumb line for "A" to appear vertically below Polaris:

	about	on line
July	20, 5 A.M.	5.30 A.M.
Aug.	20, 3 "	3.23 "
Sept.	20, 1 "	1.16 "
Oct.	20, 11 P.M.	11.24 P.M.
Nov.	20, 9 "	9. 2 "
Dec.	20, 7 "	7.24 "

TABLE II.—Begin to watch plumb line for "B" to appear vertically below Polaris:

	about	on line
Jan.	20, 5 A.M.	5.32 A.M.
Feb.	20, 3 "	3.20 "
Mch.	20, 1 "	1.30 "
Apr.	20, 11 P.M.	11.24 P.M.
May	20, 9 "	9.26 "
June	20, 7 "	7.24 "

DIRECTIONS.—When a plumb line matches with "A" or "B" the Pole Star is approaching the meridian and the true local mean time then is the time in column "on line." Interpolate for intermediate days, subtracting 4 min. for each day after or adding 4 min. for each day before any given date.

EXAMPLE:—July 25, begin to watch plumb line about 4.40 A.M., and Polaris will be exactly in line at 5.10 A.M. correct mean local time. To change this into local Standard Time add 4 min. for each degree west of the time meridian and subtract same for stations east of the meridian. Thus, at Yakutat, Alaska, being 5° west of the 135th Standard Meridian 20 min. must be added to the observed time for Standard Time and at Jacksonville, Fla., 8° 15' east of 90th meridian, 33 min. must be subtracted for Central Standard Time. A light placed back of the head will aid in seeing the plumb lines which may be hung in a convenient window and let the bob hang in a dish of water to prevent the wind from disturbing the line or the observation may be made with closed window.

If a Noon Mark is desired use two plumb lines and connect them by a row of tacks driven in the porch floor in the range of a pillar, post or window casing that will cast a shadow and apply the "Equation of Time" or "Sun Fast or Slow," or set time piece as directed in "Sun at Noon Mark," or by meridian passage of Moon, planets or stars, using an additional perpendicular on the Noon Mark to get the range by.

The above is only applicable between latitudes 30° + and 60° + because of the low altitude of pole in the first and high in the last.

Dec. 4	Nov. 21	Entrance of Theotokos.
Dec. 21	Dec. 8	Conception.
Jan. 7, 1916	Dec. 25	Nativity (Christmas).

The difference between old and new style will continue to be 13 days until Feb. 29, 2100, before which time it is to be hoped that Russia will get in step with the rest of the world.

* Peculiar to Russia.

HIGH WATER AT NEW YORK (GOVERNOR'S ISLAND).

The high water tables are from the book prepared and published by the United States Coast and Geodetic Survey at Washington. 0*h.* 00*m.* is midnight, and 12*h.* 00*m.* is noon. To change Eastern Standard Time to New York "Local Time," add 4 minutes. Eastern Standard Time is 5 hours slower than Greenwich Time. The heights, in ft. and tenths, are reckoned from mean low water. All hours less than 12 are in the forenoon (a. m.), all greater are in the afternoon (p. m.), and when diminished by 12 give the times after noon; for instance, 15:47 is 3:47 p. m. ●, new moon; ☽, 1st quar.; ○, full moon; ☾, 3d quar.; E, moon on equator; N, S, moon farthest north or south of equator; A, P, moon in apogee or perigee.

The chief cause of the tides is the attraction of the moon, which affecting most strongly the side of the earth nearest to it, draws or heaps up the waters in the parts of the earth successively turned toward it. When sun and moon are in conjunction or opposition, at times of new and full moon, their tidal waves will be superposed, and the effect will be a "spring tide"; when in quadrature, the lunar tide will result in a "neap tide."

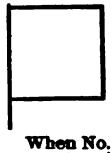
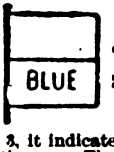
WEATHER AND TEMPERATURE SIGNALS.

NOTE.—The display of weather and temperature flags, with the exception of the cold-wave flag, is now confined to rural districts and towns of 5,000 or less inhabitants; the display has been discontinued in places of greater population, except that arrangements are sometimes made by which the forecasts are furnished to certain persons or firms who make the display without expense to the government. The cold-wave flag will be displayed as heretofore.

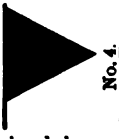


No. 1. WHITE FLAG. Fair Weather.

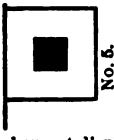
No. 2. BLUE FLAG. Rain or Snow.



No. 3. WHITE AND BLUE FLAG. Local Rain or Snow.



No. 4. BLACK FLAG. Temperature.



No. 5. WHITE—BLACK CENTER. Cold Wave.

When No. 4 is placed above Nos. 1, 2, or 3, it indicates warmer; when below, colder; when not displayed, temperature is expected to remain about stationary. The cold-wave flag is displayed when an unusual fall in temperature (the l mits varying with the locality and time of year) is anticipated. When displayed on poles, the flags are arranged to read downward; when displayed from horizontal supports, a small streamer is attached to indicate the point from which the signals are to be read.

Storm and Hurricane Warnings.

RED FLAG BLACK CENTER.

RED PENNANT.

WHITE PENNANT.

1st.—A storm warning; red flag with black center. 2d.—When red pennant is hoisted above storm warning, winds are expected from northeast quadrant; when below, from the southeast quadrant. 3d.—When white pennant is hoisted above storm warning, winds are expected from the northwest quadrant; when below, from the southwest quadrant. 4th.—Red pennant alone, small craft warning, indicates squalls and winds. 5th.—Hurricane warning and extremely dangerous storms, two red flags with black centers, displayed one above the other. 6th.—Night storm warnings; a red light for easterly winds and a white light below a red light for westerly winds.

Storm Warning Stations.

Storm warning display stations, located in New York City and vicinity, are under the control of the Weather Bureau office, 17 Battery Place, Manhattan.

Stations equipped with electric lights displaying day and night warnings throughout the year:

New York City, 17 Battery Place, Sandy Hook, N. J.; Long Branch, N. J.; Fort Schuyler (Throg's Nec.), N. Y.; Oyster Bay, N. Y.

Storm warnings are furnished to naval wireless stations at Brooklyn Navy Yard and Fire Island, N. Y., for distribution to vessels at sea equipped with wireless apparatus.

Stations displaying day warnings during the summer months:

Atlantic Yacht Club, Sea Gate, N.Y.; New Rochelle Yacht Club, New Rochelle, N. Y.; Yonkers Yacht Club, Yonkers, N. Y.

Day warnings are displayed throughout the year at Keyport Yacht Club, Keyport, N. J.; Jack's Boat House, 138th and No. River, and on U. S. Revenue Cutter "Mohawk."

A northwest gale piled 9.6 inches of snow and sleet in New York City and surrounding country on March 2, 1914. Squalls reached 80 miles an hour in velocity. All aboveground transportation was badly crippled, and fallen wires caused danger in suburbs.

The moon was in partial eclipse on the night of March 11, 1914, shadow covering nine-tenths of its surface at 11:12 P.M., as visible in eastern United States. The eclipse was total in Greenland, northeastern Europe and central and western Asia.

Comparative Population of New York.

N. Y. State, with 9,113,614 inhabitants under the last census, has more people than any one of these European countries: Belgium, The Netherlands, Denmark, Norway, Sweden, Bulgaria, Servia, Roumania, Montenegro, Bavaria, Saxony or Wurtemberg. It has almost as many as Scotland and Ireland combined. It has more than twice as many as Australia, and it exceeds all Canada by at least one-third.

Its population is about the same as England's at the first census of that country, taken in 1801, and about two and one-third times as great as that of the entire U. S. at our own first census, taken in 1790.

N. Y. State is more populous than any country in So. America except Brazil, and it exceeds any other country in No. America except Mexico. Its increase of 1,844,720 for the last decade is greater than the population of any state west of the Missouri except California, and is almost exactly equal to that of Maine and Connecticut combined.

More than half the population of the State is now contained in New York City.

Density of New York State.

N. Y. State has 49 cities. Their aggregate population is 6,727,015, or 73.8% of the total population of the State. There are 61 counties, their population ranging from 4,373 in Hamilton County to 2,762,522 in New York County. The total land area of the State is 47,654 sq. miles. The average number of persons to each sq. mile is 191.2. In 1900 it was 152.5.

Brooklyn, if a city by itself, would be the third largest American city and the eighth largest city in the world.

The ocean beaches at Coney Island are the most celebrated in the world. It has a total of 10 miles of available waterfront.

POPULATION AND AREA—NEW YORK CITY.

The population of New York City for the thirteenth census of the United States was announced by the Director of the Census, at Washington, D. C., on September 1, 1910, as 4,766,883, an increase of 1,441,216 since 1900, or 38.7 per cent. The cost of counting New York was $152,175, of which the enumerators, who were paid 2½ cents a head, received $119,172.

Population by Boroughs

Population of the City of New York as now constituted, and in detail for each borough of the city, from 1790 to 1914. The population of Queens and the Bronx from 1790 to 1890 and of all boroughs for 1914 is estimated:

The preceding table shows that the area comprised within the present limits of the City of New York had an estimated population of 49,401 in 1790, which had grown to 696,115 in 1850, representing an increase of 646,714, or 1,309.1 per cent. The population of the present City of New York has grown to 4,766,883 in 1910, or an increase since 1850 of 4,070,768, or 584.7 per cent. In 1910, the population per acre in each of the five boroughs was: Manhattan, 193; Bronx, 16; Brooklyn, 35; Queens, 3; Richmond, 2.

The City of New York exceeds in population the combined population of these twelve States: Maine, New Hampshire, Vermont, Rhode Island, Delaware, Idaho, Montana, Nevada, Oregon, North Dakota, Utah and Wyoming. There is a birth every four minutes, a death every seven minutes and a marriage every ten minutes within the city limits. The city is increasing in population at the rate of some 200,000 every year.

MERCHANTS' COFFEE HOUSE TABLET.

For the first time on record all of the chief historical and literary societies of N. Y. City united in a single function on May 23, 1914, at the unveiling of a commemorative tablet on the site of the old Merchants Coffee House, at Wall and Water sts., Mhtn., the history of which is so closely interlinked with George Washington and with important events leading up to the establishment of American independence that it is referred to on the tablet as "The Birthplace of Our Nation."

After the flag which veiled the memorial tablet had been drawn aside by Miss Ellen Jay, daughter of Pierre Jay, and a descendant of John Jay, a member of the N. Y. Committee of Correspondence, which sent to Boston, May 23, 1774, the epoch-making letter signed by Isaac Low, attention was called to a bronze chest, which was later hermetically sealed and within placed documents, including a Brooklyn Daily Eagle Almanac, reflecting the life of N. Y. of the present time, as a communication to New Yorkers of 2014, before being given over to the keeping of the N. Y. Historical Soc. An inscription on the chest requests the generation of 100 years hence, after opening, to deposit mementoes of their own time and hand the chest down to their posterity of another 100 years hence.

The inscription on the tablet, which gives a brief history of its memorable events, is:

THE BIRTHPLACE OF OUR UNION.
May 23, 1774.
The Merchants Coffee House occupied this site from about 1737 until destroyed by fire, Dec. 18, 1804.

Here met the committees of citizens who took prominent part in the stirring events which led to the Revolution. Here also was drafted by a special committee, composed of Isaac Low, chairman; Alexander McDougall, James Duane and John Jay of the New York Committee of Correspondence, the epoch-making letter of May 23, 1774, which was dispatched to Boston and in which appears the following striking sentence:

"From a virtuous and spirited Union much may be expected, while the feeble efforts of a few will only be attended with mischief and disappointment to themselves, and triumph to the adversaries of our Liberty."

From this resulted the First Congress of the "United Colonies of North America," held at Philadelphia, Sept. 5, 1774.

AREA AND DENSITY OF BOROUGHS.

The determination of an exact area of New York City and its boroughs is a debatable matter. This is due to the irregular waterfront lines and the existence of considerable areas under water, marsh lands, or meadow lands, which different surveyors compute differently. Some base their figures within pierhead lines, others within bulkhead lines and still others within borough lines. No official figures exist for the exact areas of the boroughs. The Eagle Almanac gives below the areas by Assembly Districts, computed by the topographical bureaus of each borough; also the areas computed by wards by the Health Department. The discrepancies are explained above. The Eagle Almanac gives the preference to the Topographical Bureau figures, as same are computed for the official use of each Borough President's office.—Editor.

POPULATION OF NEW YORK CITY AND SUBURBS.

In the U. S. Census for 1910, population has been computed for cities and their adjacent territory, including besides the central city, all cities, towns and villages or other divisions located within ten miles of the boundaries of the central city. The metropolitan district is defined as the Greater City of N. Y., together with the urban portion only of the territory within ten miles of the city limits. The figures for New York City are as follows:

New York.	Area, acres	1910 Pop'l.	1900 Pop'l.	P.C. Inc.
Metropolitan district	616,927.6	6,474,568	4,607,804	40.5
In city proper	183,555.0	4,766,883	3,437,202	38.7
Outside urban portions	433,372.6	1,707,685	1,170,602	45.9
City and all adjacent territory	875,515.2	6,630,599	4,718,255	40.5
All adja ent territory	691,960.2	1,863,716	1,281,053	45.5

With the adjacent territory of New York are the following municipalities of 5,000 inhabitants or over. New York: Yonkers city, 79,803; Mount Vernon City, 30,919; New Rochelle city, 28,867; Mamaroneck village, 5,699. In the following table it should be remembered that the Census Bureau includes in its figures only those residing within the corporate city or village limits. In many villages especially, a large part of the population lives outside these limits and are included only in the town or county enumeration. The figures, therefore, for 1910 are not necessarily conclusive evidence of a community's size. Letter c after name indicates city.

STADIUM OF THE COLLEGE OF THE CITY OF NEW YORK.

A stadium costing $200,000 has been constructed for the College of the City of New York. It is the gift of Adolph Lewisohn and occupies the two blocks between W. 138th and W. 139th sts. and Convent and Amsterdam avs., Mhtn. The property was formerly under control of the Park Dept., but when the gift of the structure was proposed by Mr. Lewisohn the Sinking Fund Commission voted the use of the site. The stadium is to seat 10,000 and equal any in the U. S. Ground was broken for it on Oct. 6, 1913. It is expected to be opened for games in 1915.

U. S. POPULATION IN CITIES.

The urban population of the continental U. S. in 1910 is contained in 2,405 cities and other places, with a combined population of 42,623,383, or 46.3% of the total population of the country. Fifty of these places are cities of 100,000 inhabitants or more, with a combined population of 20,302,138, or 22.1% of the total population, and 179 are cities and towns having from 25,000 to 100,000 inhabitants, with a combined population of 8,241,678, or 9% of the total population. These two groups together have a combined population of 28,543,816, or somewhat more than three-tenths (31.1%) of the total population of the country. The 229 places comprising these two groups are distributed among 40 states (including the Dist. of Columbia), there being 9 states which contain no city of over 25,000 inhabitants. The Dist. of Columbia, which is co-extensive with the City of Washington, has a population of over 300,000 inhabitants, and is wholly urban. Beside the Dist. of Columbia, there are 16 states in which the percentage of the total population in 1910 living in cities of over 25,000 inhabitants exceeds that for continental U. S. as a whole (31.1) and in some of these states the proportion is very large, notably New York, 69.5%; Rhode Island, 67.3%; Massachusetts, 64.1%, and New Jersey, 53.3%. Aside from the Dist. of Columbia, there are only three states, Delaware, Utah and Nevada, which do not contain one or more places in each of the other groups of smaller urban communities, namely, those having from 10,000 to 25,000, 5,000 to 10,000, and 2,500 to 5,000 inhabitants, respectively, but the proportions of the total population contained in each of the three groups differ greatly.

SEX DISTRIBUTION IN U. S.

The population of the U. S., exclusive of Alaska, Hawaii, Porto Rico and other non-contiguous possessions comprised in 1910, according to the last Federal Census, 47,332,277 males and 44,639,989 females, or 106 males to every 100 females; in 1900 there were 104.4 males to every 100 females. In the negro population males are outnumbered by females in a ratio of 98.9 to 100. Among the Chinese in this country males outnumbered females by more than 14 to 1, and among the Japanese by about 7 to 1. The Indians show a small excess of males, 103.5 to 100 females.

In most European countries females outnumber males; the number of males to 100 females according to recent censuses being 93.6 in England, 96.7 in France, 96.9 in the German Empire, 96.4 in Switzerland, 99 in Italy, 96.7 in Austria, 99.1 in Hungary, and 98.9 in Russia.

Males increased more rapidly than females in the U. S. from 1900 to 1910. The former increased 21.9%; females, 20.1%. Among foreign-born white, number of males per 100 females increased from 117.4 in 1900 to 129.2 in 1910.

History of Parks.

Bowling Green—The first park space in Mhtn. was that now called Bowling Green Park. In 1732 this plot was leased by citizens for playing the game of bowls. In 1786 it was first laid out as a park.

Central Park—(For a history of this park see Eagle Almanac of 1907). The drives aggregate 9.452 miles and the bridle roads 5.503 miles; the walks, 31 miles. Its area is 843.019 acres. The following are some of the principal features: At 59th and 5th av. the Scholars' Gate, adorned by a bust of Von Humboldt, unveiled in 1874. In the southwest part is the playground and carousel for children, and beyond is the common lawn of 16 acres. The Menagerie is in the southeast part, clustered around the old Arsenal Building. The Mall is a broad promenade, a quarter of a mile long and 208 ft. wide, bordered by double rows of elm trees and famous for the collection of statues, prominent among which are: Shakespeare, by J. Q. A. Ward, erected on the 300th anniversary of the poet's birth; Burns and Scott; the "Indian Hunter," by Ward; Fitz Greene Halleck, and a colossal Beethoven bust. Near by is the Music Pavilion. The Terrace, a sumptuous pile of richly carved masonry, and the Lake come next in view, and the famous Bethesda fountain, designed by Emma Stebbins and made in Munich. Beyond the Lake is the Ramble, 36 acres, passing a bust of Schiller, rustic cabins, gorges and waterfalls. Farther on is the Belvedere, a tower of stone; next are the city reservoirs. On the left is the Amer. Museum of Natural History. Admittance free. Open 9 a.m. to 5 p.m. Sun., 1 p.m. to 5 p.m.; Tues. and Sat. evenings, Oct. to May. Opposite the Obelisk and near 5th av. and 83d is the Metropolitan Museum of Art. Admittance free except Mon. and Fri. (25c.); open 10 a.m. to 5:30 p.m.; Sat., 10 a.m. to 10 p.m., and Sun., 1 p.m. to 6 p.m. The greenhouses, opened 1899, cost $55,000; located 300 ft. south of E. 10th entrance.

City Hall Park constitutes a part of what was known in 17th century as "The Common Lands." At the close of the Revolutionary War improvements were begun. The city hall cornerstone was laid in 1803 and building used for the first time in 1811.

Madison Sq. Park was laid out as a Potters Field in 1794. The U. S. Govt. erected there an arsenal in 1806. Plans for improving the park were adopted in 1870.

Tompkins Sq. Park was a parade ground in 1866. It was paved with concrete, but has been remodeled and laid out as a park.

Union Sq. Park was laid out in 1815 and enlarged in 1832, and plans for its improvement adopted in 1870.

Washington Sq. Park—In 1797 Potters Field was removed from Madison Sq. to Washington Sq. Park, later known as Washington Parade Ground. Plans for its improvement were adopted in 1870; carried out in 1871.

Wm. H. Seward Park was opened to the public Oct. 17, 1903. This is the first park in Greater N. Y. planned especially for playground and gymnasium features. It contains a splendid pavilion, shower baths, toilet facilities, etc.

The Speedway.

Opened July 1, 1898. With its approach from 155th, is about 2¼ miles long; is the only driveway in Mhtn. where there are no restrictions as to speed. Cost of construction has been $3,025,000, exclusive of land values.

The Aquarium.

Battery Park Aquarium opened Dec., 1896. Free. Open every day in the year. Summer, 9 a.m. until 6 p.m.; winter, 10 a.m. to 4 p.m.

Exhibits—Fish, 200 kinds, making with Mammals, Crustaceans, Mollusks and Reptiles, a total of many thousand specimens. Average yearly attendance for 15 years, 2,400,000. Hatchery, 6,000,000 food fish distributed.

History of Parks.

Bronx—(For history of this park see Eagle Almanac for 1904.) The northerly section, about 250 acres, is set apart as a Botanical Garden. The southeasterly section of the park, comprising 261 acres, is in charge of the Zoological Society. Bronx Park is reached via 3d av. L to Bronx Park sta. (Botanical Garden); 3d or Webster av. trolleys, Fordham rd., with transfer to Bronx Park line; Southern Blvd. trolley from 128th to Pelham P'kway (entrance to Zoological Garden); Subway (w. side, 207th sta.) via Crosstown, Bronx Park car; Subway (West Farms line) to 180th, or any crosstown line will transfer to northbound trolley car, with further transfer at Fordham rd. via Bronx Park car. Open 8 a.m. to 5 p.m.

Claremont Park lies on high ground with an elevation of 100 ft. in places. It is fully developed, with many tennis courts and baseball diamonds. It contains the old Zbrowski mansion, now used for offices of the Park Dept.; acquired in 1888.

Crotona Park has been improved. There is a fine athletic field laid out in it, containing ball diamonds, tennis courts, etc.

Franz Sigel Park (Cedar Park) lies on a high ridge overlooking the Harlem River. It was acquired June, 1885.

Macomb's Dam Park was acquired in 1899 and is divided into several sections by the streets. It is adjacent to the Harlem River and is the hdqts. for many rowing clubs. Contains baseball diamonds and tennis courts and ¼-mile running track.

Pelham Bay Park, with its coastal indentations, its picturesque bays and inlets and open water front, is one of the most beautiful in the world. It contains large tracts of woodland trees that are centuries old. This park is being developed by carriage roads and footpaths, has a fine new athletic field and parade ground covering 120 acres, and an 18-hole golf course.

PARKS, DRIVES AND STATUES—THE BRONX—*Continued.*

St. Mary's Park was formerly a portion of the estate of Gouverneur Morris, a prominent delegate to the convention which framed the Constitution of the U. S. A large portion of the park is very high, commanding fine views of the E. R., L. I. Sound and Harlem River; acquired in 1888.

Van Cortlandt Park—Second in size in the borough, accessible by Putnam Div. N. Y. C. & H. R. R. R., B'way subway and several trolley lines running through Jerome av. and Kingsbridge trolley. Van Cortlandt Lake comprises 25 acres. (For history of this park see Eagle Almanac for 1908.)

Statues.

Poe—Poe Park; unveiled Jan. 19, 1909.

Zoological Park.

The N. Y. Zoological Park is located at the geographical center of Bronx Borough, in the southern section of Bronx Park. It occupies a site of 261 acres. Is reached by West Farms subway to 180th, 3d av. L to Pelham av., Harlem R. R. to Fordham and all surface cars to West Farms.

The park is the joint production of the N. Y. Zoological Soc. and the City of N. Y., but it is managed solely by the society. In several respects it stands at the head of the zoological parks and gardens of the world, notably in area of grounds occupied by animals, in the total number of living animals, birds and reptiles exhibited. In number of species exhibited it is about equaled by the Zoological Gardens of Berlin and London. The total number of living creatures on exhibition on June 1, 1912, was 4,827 specimens, representing 1,248 species. There are 14 large animal buildings, 10 animal buildings of the second class, and 14 large groups of outdoor dens, aviaries and corrals. The attendance of visitors in 1913 was 1,943,683. Open May to Nov. 9 a.m. and in winter 10 a.m., closes half hour before sunset.

Admission is free on five days of each week, including all holidays and Sun., but on Mon. and Thurs. an admission fee of 25c. is charged. The City of N. Y. provides the annual maintenance fund and the Zoological Soc. furnishes all the living collections. The park was opened to the public on Nov. 9, 1899. The names of the officers are as follows: Prof. Henry Fairfield Osborn, Pres. of the Zoological Soc.; Madison Grant, Sec.; Wm. T. Hornaday, Director and General Curator of the Zoological Park.

Botanical Garden.

The Botanical Garden, area 250 acres, is located at the northerly end of Bronx Park; is open 10 a.m. to 4:30 p.m. summer; 10 a.m. to 4 p.m., winter. Reached by 3d av. L, B'way subway, changing at 207th sta. for crosstown Bronx Park car. Contains extensive greenhouses and a large museum collection; also free public lectures every Sat. from April to Nov.

Grand Boulevard and Concourse.

The Concourse, under the jurisdiction of the Borough of The Bronx, is designed to provide connection bet. Mhtn. and the park system in the northern and eastern portions of The Bronx. The estimated cost of the work of construction was $1,052,153, and the actual cost at contract price, $1,049,600. The contract was let Aug. 20, 1902, the lowest bid being $1,011,322. The ground was broken for the work by President Haffen on Oct. 2, 1902, at the junction of Morris av. and 175th. The time estimated for its construction was 1,000 working days. The contract for this work was formally accepted Nov. 24, 1909.

The entrance to the Concourse, including Cedar (Franz Sigel) Park, is a stretch of land 3,300 ft. long from 400 to 500 ft. wide and extends from N. Y. Central and Hudson River R. R. to E. 164th; the route of the Concourse is along the ridge bet. Jerome and Webster avs. It is about 4 miles long and 182 ft. wide, crossing a deep valley at E. 175th, with a beautiful masonry arch. It has a central driveway for fast driving, 56 ft. in width; a macadamized driveway on each side, 24 ft. in width, for general traffic, and access to abutting property. There is a 20-ft. sidewalk on each side; trucking is prohibited and there are no bicycle paths.

Spaces bet. the driveways and the paths were planted with the trees and sodded; over 2,000 trees were planted.

The Concourse is connected with Mhtn. by means of the Madison Av. Bridge and 149th St. Bridge at Lenox av., through Mott av., and also by means of E. 161st and Central Macomb's Dam Bridge with 7th Av. Blvd. and Washington Hgts.

QUEENS.

Office: "The Overlook," Forest Park.

The park area of Queens consists of 1,057 acres. Forest Park, the largest of the system, contains public golf links, golf house, administration bldg. and extensive greenhouse.

LINCOLN MEMORIAL BEGUN.

Ground was broken on Feb. 12, 1914, in Washington, for the Lincoln Memorial, a $2,000,000 structure. The site for the memorial is in Potomac Park, on an "axis," planned more than a century ago, at one end of which is the Capitol, the monument of the Government; and at the other, more than a mile to the west, the Washington Monument.

The design of the memorial is the work of Henry Bacon, a New York architect, approved by the Memorial Commission. The most important single object will be a statue of Lincoln, the plan being for a seated figure placed well in the background of the largest chamber.

The smaller halls at each side of the central chamber each will contain a memorial, one of the Gettysburg address, and the other of the second inaugural address, in bronze letters on monumental tablets, while adjacent low reliefs will relate in allegory Lincoln's qualities as evidenced by these speeches.

Surrounding the walls inclosing these memorials is planned a colonade, forming a symbol of the Union, each column representing a State—36 in all—one for each existing at the time of Lincoln's death. On the walls above the colonade, supported at intervals by eagles, will be 48 memorial festoons, one for each State now existing.

The members of the Lincoln Memorial Commission are: Former President W. H. Taft, chairman; J. C. S. Blackburn, J. G. Cannon, G. P. Wetmore, S. W. McCall, Speaker Champ Clark and T. S. Martin.

The obelisk, known as "Cleopatra's Needle," in Central Park, is estimated as being at least 3,300 years old. This monument was erected by Thothmes III of the 18th Dynasty of Egyptian Kings about the year 1400 B. C. It was standing long before Moses and the Israelites lived in Egypt. It was erected, together with its companion obelisk now in London, England, to adorn the Temple of On, whose location is identical with the Heliopolis of later times.

TAXI., AUTO. AND CAB HIRE.

Motor vehicles (except sight-seeing cars)—for not more than two passengers: For the first half mile or any fraction thereof, 30 cents; each succeeding one-quarter mile, or any fraction thereof, 10 cents. Three or more passengers: For the first half mile, or any fraction thereof, 40 cents; for each succeeding one-sixth mile or any fraction thereof, 10 cents.

No rates are established for sight-seeing cars, but a schedule of the rates charged for each trip shall before the trip be prominently displayed upon the car, and a charge greater, or attempt to charge any passenger a sum greater than set forth in said schedule shall be deemed a violation of this ordinance.

Cabs—For the first mile, or any fraction thereof, 50 cents; for each succeeding one-half mile, or any fraction thereof, 20 cents.

Coaches—For the first mile, or any fraction thereof, 70 cents; for each succeeding one-half mile, or any fraction thereof, 30 cents. Hourly rates (applying only to horse-drawn vehicles when shopping or calling, and not including park or road driving, nor driving more than five miles from the starting point): For the first hour, or any part thereof, $1.50; for each additional one-half hour, 50 cents.

In case of public hacks on which taximeters are not affixed, when driving on the numbered streets or numbered and lettered avenues in the Borough of Manhattan, 20 blocks north and south, and 7 blocks between the numbered and lettered avenues constitute a mile for the purpose of this ordinance. The rate card, as provided for shall state the number of blocks constituting a mile in the Borough of Mhtn.

Motor-driven and horse-drawn vehicles—for waiting time at the rate of $1.50 per hour. For each piece of luggage carried outside, 20 cents. No charge shall, however, be made for hand bags and suit cases. Ferriage and tolls in all cases to be paid by the party using the vehicle.

The pilot boat New Jersey in the lower N. Y. Bay, was rammed during a heavy fog on July 10, 1914, and sunk.

The foundation of one wing of the Brooklyn Central Library Bldg., Flatbush av. and Eastern Parkway, for which $200,000 had been appropriated by N. Y. City, is now completed. The entire building, which will be one of the handsomest structures of its kind, will cost approximately $5,000,000. It will occupy a site extending 486 ft. on Flatbush av., and 332 ft. on Eastern Parkway, and a frontage of 70 ft. on the Prospect Park Plaza, opposite to the Memorial Arch and extending 486 ft. along the Mt. Prospect Reservoir in the rear. The site covers 6,900 sq. ft., or 2¼ acres. The building will be five stories high and will have a book capacity of 2,500,000 volumes. Ground was broken on June 5, 1912. The Public Library system of the borough, which embraces 30 branches, 2 stations (small branches open afternoons), a department of traveling libraries, and a library for the blind, with about 800,000 volumes, has an annual circulation of more than 4,000,000. Under the Carnegie Foundation the city now owns in Brooklyn 19 library buildings, the average cost of which has been $80,000, and a site has been secured for one more at Richards and Visitation pl. (See Page 112, Bkln. Public Library.)

TRIBUTE TO VERA CRUZ DEAD.

New York City, the State, and the nation joined on May 11 in a reverent tribute to the nineteen sailors and marines who lost their lives in the country's service at Vera Cruz. In the early mist of the awakening May morning the first of the flag-draped coffins was removed from the battleship Montana to the Battery. From that time until the last word of sympathy had been spoken over the dead by President Wilson at the navy yard in Brooklyn, tens of thousands of watchers followed the cortege which unwound its length through the lower city and across the Manhattan Bridge.

Roofs, windows, fire escapes, and streets were crowded with Americans of many strains and many tongues, united in common sorrow. A long stretch of the march was made amid tense, impressive silence.

The funeral procession paused at the City Hall, where Mayor Mitchel delivered a eulogy, and laid a wreath on one of the coffins as the city's tribute. Church bells were tolled throughout the city, and business was suspended for an hour at this time.

President Wilson delivered his address over the dead half an hour later on the parade ground in front of the marine barracks in the navy yard. He declared that this country had gone down into Mexico not to fight the Mexicans, but to help them find a way to freedom. In a war of aggression, he said, there was no pride in death, but to die in a war of service was glorious.

War the President described as "a sort of dramatic symbol of a thousand forms of duty."

"I never went into battle, I never was under fire," Mr. Wilson continued, "but I fancy that there are some things just as hard to do as to go under fire. I fancy that it is just as hard to do your duty when men are sneering at you as when they are shooting at you. When they shoot at you they can only take your natural life; when they sneer at you they can wound your heart."

Just before the military volleys were fired over the coffins, the vast crowd poured over the lowered ropes into the space in front of the President's stand, overcoming the police and sailor guards. Eighteen women and six men fainted in the crush, and some of them had to be treated in the emergency hospital tents near by. Names and ages of the honored 19 are:

Louis Frank Boswell, 24, chief gunner's mate, Couterville, Ill.; Gabriel A. Defabbia, 26, gunner's mate, third class, Batavia, N. Y.; Francis P. De Lowry, 21, seaman, Pittsburg; Frank Devorick, 19, ordinary seaman, Blakesburg, Iowa; Elzie C. Fisher, 20, ordinary seaman, Forest, Miss.; Louis Oscar Fried, 19, ordinary seaman, Gretna, La.; E. H. Frohlichstein, 20, ordinary seaman, Mobile, Ala.; Clarence R. Hershbarger, 22, ordinary seaman, New York; Denis J. Lane, 20, seaman, New York; George Poinsett, 20, seaman, Philadelphia; Henry Pulliam, 22, ordinary seaman, Virginia; John F. Schumacher, 25, coxswain, Brooklyn; Charles Allen Smith, 20, ordinary seaman, Philadelphia; Albin Eric Stream, 19, ordinary seaman, Brooklyn; Walter L. Watson, 22, ordinary seaman, Orleans, Mass.

United States Marine Corps—Daniel Aloysius Haggerty, 26, private, Cambridge, Mass.; Samuel Martin, 22, private, Chicago; Rufus Edward Percy, 24, private, Concord, N. H.; Randolph Summerlin, 22, private, Willacoochee, Ga.

The bodies of Pulliam and Hershbarger did not come on the Montana. They died of wounds in Vera Cruz, their bodies were brought to Brooklyn later on the hospital ship Solace.

DEATH OF ALEXANDER E. ORR.

Alexander Ector Orr, who was president of the old Rapid Transit Commission and whose distinguished services to Bkln. made him one of her foremost citizens, died on June 13, 1914, at his residence, 102 Remsen, Bkln. For 2 years he had been failing, but the illness which caused his death confined him to his bed only 4 days.

Mr. Orr was in his 83d year, and his death was due primarily to old age, and to the fact that his strength failed him rapidly after he retired from active business in 1912. Funeral services were held in Christ Church, Clinton and Harrison. He was once president of the N. Y. Life Insurance Co. He was born in the Town of Strabane, Co. Tyrone, Province of Ulster, Ireland, on March 2, 1831.

COPYRIGHTS, PATENTS AND TRADE-MARKS.

COPYRIGHTS.

UNDER LAW OF JULY 1, 1909.

Periodicals—1. Publish the issue upon which copyright protection is desired, printing therein the required copyright notice, before making any application to the Copyright Office for registration. (As to the form and position of the notice, see below.)

2. Promptly after the publication of each issue, send 2 copies thereof to the Copyright Office, Washington, D. C., with an application for registration (upon Form B1) and a remittance for the statutory fee of $1, which sum includes the cost of a certificate under seal. Such certificate "shall be admitted in any court as prima facie evidence of the facts stated therein."

If the work for which copyright is desired be a contribution to a periodical for which special registration is desired, one copy of the issue or issues containing it must be deposited. Use form A5. A special copyright claim must be printed on the contribution. See notice of copyright.

Application forms for registration will be forwarded by the Copyright Office on request. (See below.)

Publishers who desire to avoid the trouble of filling up a separate application form and of making a separate remittance for each issue may send in advance a sum to be placed to their credit.

After this has been done, 2 copies of each issue should be mailed to the copyright office promptly after publication, with an application form (B2), (supplied in blank by the Copyright Office), giving the exact date of publication of the issue (i. e., "the earliest date when copies of the 1st authorized edition were placed on sale, sold, or publicly distributed by the proprietor of the copyright or under his authority").

Books—Print and publish with a notice of copyright, then register, using Form A1. Manuscript cannot be registered.

Notice of Copyright.—The law prescribes that the copyright notice shall consist either of the word "Copyright" or the abbreviation "Copr.", accompanied by the name of the copyright proprietor, and the year in which publication was made in the case of a literary, musical or dramatic work.

In the case of a periodical the notice should be applied either upon the title-page, or upon the 1st page of text of each separate number, or under the title heading, and include year of publication.

One notice of copyright in each number of a newspaper or periodical published suffices.

In the case of a contribution for which special registration is desired, put the notice just under the title of the contribution.

In case of works specified in Classes F to K (see Application Forms). The notice may consist of the letter C in a circle (C), accompanied by the initials, monogram, mark or symbol of the proprietor, provided his name appears on some accessible part of the work.

Type-setting in the U. S.—Section 15 of the law provides "That of the printed book or periodical * * * the text of all copies accorded protection under this Act, * * * shall be printed from type set within the limits of the U. S. either by hand or by the aid of any kind of type-setting machine, or from plates made within the limits of the U. S. from type set therein, or, if the text be produced by lithographic process, or photo-engraving process, then by a process wholly performed within the limits of the U. S."

For a separate affidavit form to be filed with copies of a book printed from type set within the U. S. or from plates made therefrom, use Affidavit Form A1 which will be furnished by the Copyright Office on request. For a separate affidavit form to be filed with copies of a book produced by lithographic or photo-engraving process wholly performed within the U. S., use Affidavit Form A2.

Franking Privilege—The law requires that the postmaster to whom is delivered the articles to be deposited in the Copyright Office shall, if requested, give a receipt therefor and shall mail them to their destination without cost to the copyright claimant.

Fees—The statutory fee for the registration of any one issue of a periodical is $1, including a certificate under seal as explained above. Non-certificate, 50c., entries are not permissible under the new law, except in the case of photographs. Each issue of a copyright periodical requires the payment of it own registration fee of $1.

Contributions to Periodicals—Section 3 of the law provides "That the copyright provided by this Act shall protect all the copyrightable component parts of the work copyrighted, and all matter therein in which copyright is already subsisting, but without extending the duration or scope of such copyright. The copyright upon composite works or periodicals shall give to the proprietor thereof all the rights in respect thereto which he would have if each part were individually copyrighted under this Act."

Titles—The general title of a newspaper, magazine, or other periodical cannot be protected under the copyright law. The requirement of the former law that a printed title be deposited on or before the day of publication has been abrogated, and the deposit of the title in advance of publication is no longer authorized. What the law now requires is that there be deposited 2 complete copies of each issue, promptly after publication.

Remittances should be made by money order, payable to the Register of Copyrights. Postage stamps should not be sent as fees.

Application Forms—The Copyright Office has issued the following application forms, which will be furnished on request, and should be used when applying for copyright registration:

A1—Book by citizen or resident of the U. S. A2—Book reprinted in U. S. with new copyright matter. A3—Book by foreign author in foreign language. A4, Ad interim.—Book published abroad in the Eng. language. A5—Contribution to a newspaper or periodical. B1—Periodical; registration of single issue, accompanied by cash. B2—Periodical; fee to be charged against credit. C—Lecture, sermon or address. D1—Published dramatic composition. D2—Dramatic composition not reproduced for sale. D3—Dramatico-musical composition (published). D4—Dramatico-musical composition (unpublished). E—Musical composition published for 1st time. E1—Musical composition republished with new copyright matter. E2—Musical composition not reproduced for sale. F—Published map. G—Work of art (painting, drawing, or sculpture); or model or design for a work of art. H—Reproduction of a work of art. I1—Drawing or plastic work of a scientific or technical character (published). I2—Same (unpublished). J1—Photograph published for sale. J2—Photograph not reproduced for sale. K—Print of pictorial illustration. L1—Motion picture photo-plays (published). L2—Same (unpublished). M1—Motion-picture not photo-play (published). M2—Same (unpublished). Motion-picture scenarios are not entitled to registration unless they have been printed and published. Like other unpublished work they are protected by the common law.

For works not reproduced in copies for sale—Copyright may also be had of certain classes of works (see a, b, c below) of which copies are not reproduced for sale, by filing in this office an application for registration, with the statutory fee of $1, sending therewith

(a) In the case of lectures or other oral addresses or of dramatic or musical compositions, one complete manuscript or typewritten copy of the work.

(b) In the case of photographs not intended for general circulation, 1 photographic print.

(c) In the case of works of art (paintings, drawings, sculpture); or of drawings or plastic works of a scientific or technical character, 1 photograph or other identifying reproduction of the work.

This privilege of registration, however, does not exempt the copyright proprietor from the deposit of copies where the work is later reproduced in copies for sale.

Application for the renewal of subsisting copyrights—Application for the renewal or extension of subsisting copyright may be filed within 1 year prior to the expiration of the existing term by:

(1)—The author of the work if still living; (2) the widow, widower or children of the author if the author is not living; (3) the author's executor, if such author, widow, widower, or children be not living; (4) if the author, widow, widower, and children are all dead and the author left no will, then the next of kin.

COPYRIGHTS, PATENTS AND TRADE MARKS—*Continued.*

If the work be a composite work upon which copyright was originally secured by the proprietor thereof, then such proprietor is entitled to the privilege of renewal.

The fee for the recording of the renewal claim is 50 cents.

For the renewal of copyright subsisting in any work for the new renewal term of 28 years, as provided by Section 24 of the new law, use Renewal Form R1 which will be furnished by the copyright office on request.

For the extension of an existing renewal term from 14 years as provided under the old law, to 28 years granted by the new law, use Extension Form R2.

PATENTS.

Applications for letters patent must be made to the Com. of Patents, and signed by inventors. It is advisable that applicants employ competent attorneys to prosecute their cases. The office can not aid in selecting such, but advises applicants to avoid doing business with those who advertise the possession of unusual facilities for obtaining patents. Specifications and claim must be signed by inventors and attested by two witnesses.

The oath made is that inventor believes himself to be original and first discoverer of the art, machine, manufacture, composition, or improvement; that he does not believe or know that it was ever known or used before his invention thereof, and not in public use or on sale in the U. S. for two years prior to the application, and the country of which he is a citizen or subject. This oath may be made before any authorized persons in the U. S., or abroad before any minister, charge d'affaires, consul or commercial agent, holding a commission under the U. S. Govt.

Drawings must be artistically executed. The Patent Office will make necessary corrections at the applicant's option and cost. The office will furnish drawings at cost for applicants who desire that assistance. A working model should not be filed unless called for. Applications filed are classified according to the various arts, and are examined in order of filing. Upon rejection of application examiner must cite the best references at his command. If domestic patents be cited their dates and numbers, the names of the patentees, and the classes of invention are stated. The applicant may amend before or after first rejection or action, and he may amend as often as the examiner presents new reasons for rejection, showing how amendments avoid references and objections. Patents for designs are granted for 3½, 7 or 14 years.

A reissue is granted to original patentee when original patent is inoperative on account of defective or insufficient specification. Provisions are made for hearings before the commissioner, and interviews with examiners.

Following is a schedule of fees, paying in advance: Filing original application, $15; issuing of patent, $40; designs (3½ yrs.), $10; designs (7 yrs.), $15; designs (14 yrs.), $30; reissue, $30; filing disclaimer, $10. Certified copies, printed patents, 80c. Uncertified printed copies of specifications and drawings, 5c. each; for manuscript copies, for every 100 words or fraction thereof, 10c.; for certificate of search, $1; for each brief from the digest of assignments, 20c.; for assistance to attorneys and others in the examination of publications in the Scientific Library, an hour or less, $1; each additional hour or fraction thereof, $1. Recording every assignment, agreement, power of attorney or other paper, of 300 words or under, $1. For over 300 and under 1,000 words, $2. For over 1,000 words, $1 for each additional 1,000 or fraction thereof. A receipt or certificate of deposit for money paid to the Sub-Treasury or designated depository must be filed in the office within 10 days after money is paid.

There must be a drawing made with India ink alone, on pure white paper, the thickness of three sheets of Bristol board, and containing a calendared and smooth surface. All drawings must be made with pen only and every line and letter, signature and shading must be absolutely black. The size of the sheet must be exactly 10x15 inches, and there must be an inch margin on each side, leaving the "sight" exactly 8x13 inches. When the view is longer than the width of the sheet, it may be turned on its side, while the signature of the inventor must be placed at the lower right hand corner and the signature of the witnesses at the lower left hand corner, but, in no instance, shall they encroach upon the drawing.

Caveats—The law providing for caveats was repealed in 1910.

TRADE MARKS.

A trade mark may be registered by any person, firm or corporation in the U. S. or located in any foreign country which, by treaty, convention or law, affords similar privileges to citizens of the U. S., and who is entitled to the exclusive use of any trade mark and uses the same in commerce with foreign nations or with Indian tribes.

An application for the registration of a trade mark must be made to the Com. of Patents, and must be signed by the owner of the trade mark. A drawing must be made similar to that provided for in relation to patents as given above, but witnesses are not required.

All applications for registration are considered in the first instance by the trade mark examiner. Whenever, on examination of an application, registration is refused for any reason, the applicant will be notified thereof.

On filing an application for registration of a trade mark, $10 must be paid. If the applicant be a corporation, it must be specified under the laws of what State or nation incorporated. For single printed copy of statement, declaration and fac-simile of a trade mark, 5c.; if certified, for the grant, additional, 50c.; for the certificate, 25c.

The governments with which conventions for the reciprocal registration and protection of trade marks have been entered into by the U. S. are: Austria, Belgium, Brazil, Cuba, Denmark, Dominican Republic, France, Germany, Great Britain, Hungary, Italy, Japan, Mexico, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and Tunis.

Thomas Ewing, Com. of Patents, Washington, D. C.

POSTAL REGULATIONS.

CLASSES OF MAIL.

Domestic matter is divided into four classes, governed as follows:

1st—Embraces letters, postal cards, post cards, all matter wholly or partly in writing or sealed against inspection, postage 2c. (postal and post cards, 1c.) per oz. or fraction. Limit of weight, 4 lbs., except a single book and gold for and from Alaska.

2d—Newspapers and periodicals in their entirety which have been entered as "Second Class Matter." Parts of publications are third-class matter. Postage 1c. for each 4 ozs. or fraction thereof when mailed by other than publisher; postage to be fully prepaid or will be disposed of as waste. No limit of weight.

3d—Sections of periodicals, newspaper clippings, circulars and matter wholly in print on paper, blue prints, proof sheets, corrected proof sheets and manuscript copy accompanying the same, engravings, lithographs. Also facsimile copies made by a mechanical process such as the printing press, electric pen, mimeograph, hektograph, copygraph, etc., provided they are mailed at the post office window in the minimum number of twenty identical copies. If mailed elsewhere or in less number, first-class postage is required. A circular may have in writing or typewriting therein the name of the addressee or sender or date; any other hand or typewritten additions except corrections of typographical errors render it subject to first-class postage. Postage 1c. each 2 ozs. or fraction thereof. Limit of weight, 4 lbs. Miscellaneous printed matter over 4 lbs. can be sent by parcel post. Postage must be fully prepaid and great care exercised not to add any written words or figures except such as are permissible.

4th—Fourth class matter embraces that known as domestic parcel post mail, and includes merchandise, farm and factory products, seeds, cuttings, bulbs, roots, scions and plants, books (including catalogues), miscellaneous printed matter weighing more than 4 lbs., and all other mailable matter not embraced in the first, second and third classes, not exceeding 50 lbs. in first and second zones, 20 lbs. in other zones, not greater in size than 72 in. in length and girth combined, nor in form or kind likely to injure the person of any postal employee or damage the mail equipment or other mail matter and not of a character perishable within a period reasonably required for transportation and delivery. For delivering matter of this class this country is divided into 8 postal quadrangular zones, the first to include territory within approximately 50 miles radius from a given center; the second, the territory outside the first within a radius of approximately 150 miles; the third, within 300 miles; the fourth, within 600 miles; the fifth, 1,000 miles; the sixth 1,400 miles; the seventh, 1,800 miles, and the eighth, all outside the seventh. Rates of postage on fourth-class or parcel post matter to be fully prepaid, unsealed, are as follows: (a) Parcels weighing 4 ozs. or less, except books, seeds, plants, etc., 1c. for each oz. or fraction thereof, any distance. (b) Parcels weighing 8 ozs. or less containing books, seeds, cuttings, bulbs, roots, scions and plants, 1c. for each 2 ozs. or fraction thereof, regardless of distance. (c) Parcels weighing more than 8 ozs. containing books, seeds, plants, etc.; parcels of miscellaneous printed matter weighing more than 4 lbs., and all other parcels of fourth-class matter weighing more than 4 ozs. are chargeable according to distance or zone, a fraction of a pound being considered a full pound. On all matter mailed at a postoffice from which a rural route starts and on that mailed at a city carrier office, for local delivery, 5c. for the first pound or fraction and 1c. for each additional 2 lbs. For delivery in the first and second zone, 5 and 1; the third, 7 and 5; the fourth, 8 and 6; the fifth, 9 and 7; the sixth, 10 and 9; the seventh, 11 and 10, and the eighth and between the Philippines and the United States, 12c. for each lb. or fraction of a lb. Seeds, cuttings, bulbs, scions and plants are matter of the fourth class, subject to parcel post rates.

Forwarding Mail Matter.

Matter of the first class can be forwarded until it reaches the addressee, including post and postal cards.

All other classes require a new prepayment postage before forwarding.

What Cannot Be Mailed.

All transient second-class matter and all matter of the third or fourth class not wholly prepaid; and letters and other first-class matter not prepaid one full rate—2c.

All matter weighing over 4 lbs., except second-class matter, fourth-class matter parcel post, single books, and documents printed and circulated by authority of Congress. Parcels post matter limit 1st and 2d zones, 50 lbs.; 20 lbs. other zones. See fourth-class, above.

All matter harmful in its nature, as poisons, explosives or inflammable articles, matches, live or dead (but not stuffed) animals and reptiles, guano, or any article exhaling a bad odor, vinous, spirituous or malt liquors, and liquids liable to explosion, spontaneous combustion, or ignition by shock or jar, such as kerosene oil, naphtha, benzine, etc.

All obscene, lewd or lascivious matter, and every article or thing intended, or adapted for any immoral purpose, or for the prevention of conception or procuring abortion, or matter tending to incite arson, murder or assassination.

Postal, post, or other cards mailed without wrappers and all matter bearing upon the outside cover or wrapper any delineations, epithets, terms, or language of an indecent, lewd, lascivious, obscene, libelous, scurrilous, defamatory, or threatening character, or calculated by the terms of manner or style of display, and obviously intended to reflect injuriously upon the character or conduct of another.

Post cards bearing particles of glass, metal, mica, sand, tinsel, etc., are unmailable, except when inclosed in envelopes tightly sealed to prevent the escape of such particles, or when treated in such manner as will prevent the objectionable substances from being rubbed off or injuring persons handling the mails.

All matter concerning any lottery, so-called gift concert, or other enterprise of chance, or concerning schemes devised for the purpose of obtaining money or property under false pretenses.

DOMESTIC RATES.

The domestic rates apply to the United States, Porto Rico, Guam, Philippine Islands, Shanghai (China), Tutuila, Cuba, *Canada, *Mexico, Hawaii, Republic of Panama, the Panama Canal Zone, Tutuila (U. S. Samoa) and Midway Island.

*See exceptions which follow.

FOREIGN RATES.

Mail matter addressed to countries in the Universal Postal Union is subject to the following rates: Letters and sealed packages, 5c. for 1 oz. or fraction thereof and 3c. for each additional oz. or fraction thereof, if prepaid, and double that rate if not prepaid, except Great Britain and Germany (if sent by steamers sailing for Germany direct), and Newfoundland, which is 2c. per oz.

Postal and private mail cards, 2c. each.

Printed matter of every kind, commercial papers, samples of merchandise, 1c. each 2 ozs. or fraction thereof, but at least 5c. must be paid on each packet of commercial papers and 2c. on each packet of samples of merchandise.

Mail schedules showing the name of steamer, hour of closing of the mail at the General Post Office, etc., can be found in the corridors of the Gen. Post Office or any of its stations.

Exceptions for Cuba, Mexico, Canada and Republic of Panama.

Matter mailed in the United States addressed to Cuba, Mexico, Canada and Republic of Panama is subject to the following rates and conditions:

Letters, 2c. for each oz. or fraction of an oz. Postal cards and post cards, 1c. Double postal cards (with paid reply), 2c. Second-class matter (newspapers and periodicals), 1c. for each 4 ozs. or fraction thereof. No limit of weight. Printed matter (except second class): 1c. for each 2 ozs. or fraction thereof. Limit of weight 4 lbs. 6 ozs., except for single volumes of printed books. Packages of miscellaneous printed matter and packages of books weighing over 4 lbs., but not over 4 lbs. 6 ozs., may also be sent as fourth-class matter at the rate of 12c. a lb.

POSTAL REGULATIONS—FOREIGN RATES—*Continued.*

Fourth-class matter (domestic parcel post; see also Circular 111) not exceeding 4 ozs. in weight (except seeds, plants, etc.), is subject to the rate of 1c. for each oz. or fraction of an oz., and when exceeding 4 ozs. in weight is subject to the rate of 12c. a lb. or fraction thereof. Packages of seeds, plants, etc., not exceeding 8 ozs. in weight are subject to the rate of 1c. for each 2 ozs. or fraction of 2 ozs., and when exceeding 8 ozs. are subject to the rate of 12c. a lb. or fraction thereof. Limit of weight 4 lbs. 6 ozs., except for a single book.

Commercial papers, samples, printed books and miscellaneous printed matter may be mailed at the Postal Union postage rates and under the conditions applicable to such articles in foreign mails. Any mailable matter may be registered, but cannot be sent as insured mail. Sealed articles, other than letters in their usual and ordinary form, are unmailable. But unsealed packages may contain sealed articles which cannot be safely transmitted.

The following articles are absolutely excluded from the mails to the above countries: All packages closed against inspection and not in usual form of a letter; publications which violate any copyright law of Canada, Cuba, Mexico or Republic of Panama. Liquids and fatty substances (except samples) are unmailable to Cuba and Republic of Panama.

Customs declarations must be attached to all parcels of fourth-class matter and all packages sent by foreign parcel post to Mexico and Republic of Panama. Parcels up to 11 lbs. in weight may be sent by foreign parcel post under the conditions of the parcel post convention with Panama. Parcels may also be sent by foreign parcel post under the conditions of the parcel post convention with Mexico. The limit of weight is 4 lbs. 6 ozs., except that to certain places parcels weighing up to 11 lbs. may be forwarded. Matter addressed to Mexico must, in all cases, bear as part of the address the name of the State in which the city or town is located. For example, Acapulco, Guerrero, Mexico; not Acapulco, Mexico.

Rates and conditions in regard to mails to foreign countries not in the Universal Postal Union are the same as to those in it, with the following exceptions: Domestic rates and conditions apply to mail matter addressed to officers or members of the crews of vessels of war of the United States and the U. S. Naval Hospital, Yokohama, to matter sent to the United States Postal Agency at Shanghai, China, and, in the main (see exceptions), to that sent to Canada, Cuba, Mexico and the Republic of Panama. The domestic rate applies also to letters, but not to other articles, addressed to Great Britain, Ireland and Newfoundland, and to letters for Germany dispatched only by steamers which sail direct to German ports.

Fees for International Money Orders.

As and from Aug. 1, 1914, the following rates to all foreign countries are in effect:

For orders from 1c. to $10, 10c.; $10.01 to $20, 20c.; $20.01 to $30, 30c.; $30.01 to $40, 40c.; $40.01 to $50, 50c.; $50.01 to $60, 60c; $60.01 to $70, 70c.; $70.01, to $80, 80c.; $80.01 to $90, 90c.; $90.01 to $100, $1.

REGISTERED MAIL.

Domestic—Any article of the 1st, 2d and 3d class may be registered at any post office in the United States. The fee on registered matter domestic or foreign, is 10c. for each letter or parcel, to be affixed in stamps, in addition to the postage. Full prepayment of postage and fee is required. Two or more letters or parcels addressed to, or intended for the same person, can not be tied or otherwise fastened together, and registered as one. Name and address in full, of the sender, must be written on the back of the letter or parcel, if a letter, preferably across the flap, before it can be registered.

POSTAL REGULATIONS—REGISTERED MAIL.—*Continued.*

A return receipt signed by the recipient with date of delivery shown thereon is furnished the sender of each registered letter or parcel, without additional cost, if requested at the time of mailing, by indorsing on the address side of the letter or parcel "Receipt desired" or words of similar import.

The sender of registered mail addressed for delivering in this country may restrict its delivery to the addressee or on his written order by indorsing it upon the address side. "Deliver to addressee or order." If delivery is desired made to the addressee in person, not even upon his written order, the letter or parcel should be indorsed upon its face, "Deliver to addressee only."

All registered matter, except that which has been properly delivered once, may be forwarded without additional charge for registry fee, upon written request to the postmaster of the post-office of address of any person to whom it is deliverable. First-class registered matter is forwarded without extra charge. The postage upon 2d and 3d class matter must be paid anew before it may be forwarded from one post office to another.

The postal authorities give an indemnity for lost domestic first-class registered matter up to $50, and for lost 3d class domestic registered matter to the extent of $25, or the actual value of the lost article, when it is less than $25.

Foreign—Any article of mail matter, except parcels post package for Barbados, Dutch Guiana, Dutch West Indies, France, Great Britain, Greece, the Netherlands and Uruguay, may be registered, provided that when presented for registration the postage thereon is fully prepaid by postage stamps affixed, also the registration fee, which is uniformly 10c. Name and address in full of sender must be written across the back of the letter or parcel, and if a letter preferably across the flap, before it may be registered.

The senders of registered articles may obtain assurance of their receipt by indorsing them "Return receipt requested."

An indemnity of any amount claimed within the limit of 50 francs (approximately $9.65), will be paid on account of the loss of any registered article, regardless of its value, exchanged between the United States and any foreign country embraced in the Universal Postal Union and lost in the International mails, except for the loss of "parcels post" mail and losses arising under circumstances beyond control.

Special Delivery System.

A special 10c. stamp, when attached to a letter or package (in addition to the lawful postage), will entitle such to immediate delivery at destination within the carrier limit of a free delivery office between the hours of 7 A.M. and 11 P.M. daily, by messengers. Ten cents worth of ordinary stamps, in addition to the lawful postage, with "special delivery" written on envelope, serves same purpose.

Short paid second, third and fourth class matter, to which is attached a special delivery stamp, cannot be forwarded.

PARCELS POST SYSTEM.

The domestic parcels post delivery went into effect Jan. 1, 1913. On Jan. 1, 1914, the limit of weight of parcels of fourth-class mail for delivery within the first and second zones was increased to 50 lbs. and for other zones to 20 lbs. Each parcel must bear the return name and address of the sender or it will not be accepted for mailing. (For full regulations see Classes of Mail, 4th class, at beginning of this chapter.)

Insured Parcels Post.

A mailable parcel on which the postage is fully prepaid may be insured against loss in an amount equivalent to its actual value, but not to exceed $25, on payment of a fee of 5c. and in an amount equivalent to its actual value in excess of $25, but not to exceed $50 on payment of a fee of 10c. in stamps, such stamps to be affixed. The amount of the insurance fee shall be placed on the receipt given the sender and on the coupon retained at the mailing office.

Collect on Delivery.

The sender of a mailable parcel on which the postage is fully prepaid may have the price of the article and the charges thereon collected from the addressee on payment of a fee of 10c. in stamps affixed, provided the amount to be collected does not exceed $100. Such a parcel will be insured against loss, without additional charge, in an amount equivalent to its actual value, but not to exceed $50. The sender of a collect on delivery parcel will be given a receipt showing the office and date of mailing, the number of the parcel and the amount due him.

A C. O. D. parcel will be accepted only at a money order office and when addressed to a money order office. Money order offices are designated in the Parcels Post Guides by an asterisk (*) or a dagger (†). The C. O. D. tag must show the amount due the sender, the money order fee necessary to make the remittance and the total amount to be collected. C. O. D. parcels will not be accepted when addressed to the Philippine Islands. The addressee will not be permitted to examine contents of a C. O. D. parcel until it has been receipted for and all charges paid. A parcel may be refused when it is tendered for delivery, but after delivery has been effected it cannot be returned on account of dissatisfaction with contents or amount collected.

A mailable parcel will be accorded the usual special delivery service when special delivery stamp or 10c. in ordinary stamps are affixed thereto, in addition to parcel post postage.

When ordinary stamps are used the words "Special Delivery" must be placed on the wrapper.

Note—The local rate applies to parcels mailed under the following conditions:

(1) At any post office for local delivery at such office.

(2) At any city letter carrier office, or at any point within its delivery limits, for delivery by carriers from that office.

(3) At any post office from which a rural route starts, for delivery on such route, or when mailed at any point on a rural route for delivery at any other point thereon, or at the office from which the route starts, or for delivery on any other rural route starting from the same office.

All matter should be plainly addressed to avoid error and unnecessary delay in delivery.

POSTAL SAVINGS BANK SYSTEM.

The Postal Savings Bank System was established in Brooklyn on Sept. 1, 1911, at the General Post Office, Washington and Johnson streets. The hours of deposit are from 9 a.m. to 5 p.m. and at General P. O. to 9 p.m. Sats. Postal savings deposits are accepted at substations, suburban post offices and at certain numbered stations, marked with a (*) in the Eagle Almanac list. The first postal savings bank to be opened in N. Y. City started at the General P. O., Mhtn., on Aug. 1, 1911.

Information for Depositors.

The Postal Savings System is established for the purpose of providing facilities for depositing savings at interest with the security of the U. S. Government for repayment. Accounts may be opened and deposits made by any person of ten years of age or over in his or her own name, and by a married woman in her own name and free from any interference or control by her husband. No person can have more than one account at any one time. All accounts must be opened in person by the depositor or his authorized representative. After opening an account a depositor may forward subsequent deposits by mail. Deposits will be accepted only from individuals, and no account will be opened in the name of any corporation, association, society, firm or partnership, or in the name of two or more persons jointly, or in the name of one person in trust for another. The service of the Postal Savings System is free. No person connected with the P. O. Dept. is permitted to disclose the name of any depositor or give any information concerning an account except to the depositor himself, unless directed to do so by the Postmaster General.

How to Open an Account.

To open an account a person must fill out and sign an application. Deposits will be received in the form of either Postal Savings Cards properly completed to the amount of $1, or cash not to exceed $100, during any one month, or a total not to exceed $500 for any one account. Deposits are evidenced by postal savings certificates issued in fixed denominations of $1, $2, $5, $10, $20, $50 and $100, each bearing the name of the depositor, the number of his account, the date of issue, the name of the depository office and the date on which interest begins. Duplicates of each certificate issued are retained by the postmaster, so that a depositor losing his certificate may obtain a duplicate. No account may be opened for less than $1. Savings certificates cannot be transferred or negotiated and will be payable only to the person to whom issued. On opening an account a depositor is supplied with an envelope in which he may keep his savings certificates. On this envelope is printed information for his guidance, and also a blank ledger record on which to keep an account of his deposits and withdrawals.

Savings Cards and Stamps.

Postal Savings Cards and Postal Savings Stamps, valued at 10c. each, are sold at the retail stamp windows of the General Post Office and at all stations.

Amounts less than $1 may be saved for deposit by the purchase of 10c. postal savings cards and 10c. postal savings stamps. Each card contains blank spaces to which savings stamps may be affixed. A postal savings card with nine 10c. savings stamps thus affixed will be accepted as a deposit of $1. Savings cards and stamps will be redeemed without the issue of savings certificates. After the account has been opened deposits may be made by mail.

Two Per Cent. Interest Paid.

Interest on any deposit is payable annually at the rate of 2% per annum, computed on each savings certificate separately. No interest will be paid on money which remains on deposit for a fraction of a year only. Deposits will bear interest from the first of the month next following that in which deposited. Interest will continue to accrue on a savings certificate as long as it remains outstanding, certificates being valid until paid, without limitation as to time. Compound interest is not allowed on an outstanding certificate, but a depositor may withdraw interest payable and include it in a new deposit, which will bear interest at the regular rate. A depositor may at any time withdraw the whole or any part of his deposits to his or her credit with interest payable, by surrendering savings certificates, properly indorsed, for the amount desired. Deposits to, or withdrawals from, an account may be made by depositor's representative upon properly filling out forms provided for that purpose, or by mail. In case of death the entire account with interest due will be paid to executor or persons entitled to receive it, upon application in proper form. A woman who opens an account and afterward marries must present her savings certificates at her office in order that the certificates may be indorsed as payable to her in her new name.

Postal-Savings Bonds.

A depositor will be permitted to exchange the whole or any part of his deposit in sums of $20, $100 or $500, into U. S. registered or coupon bonds bearing interest at the rate of 2½% per annum, payable semi-annually, and redeemable at the pleasure of the U. S. after one year from date of issue, both principal and interest payable 20 years from such date in U. S. gold coin. Such exchange may be made under date of Jan. 1 and July 1 of each year, provided such bonds are then available. Application for such bonds may be made at any time.

On the application of any holder the Board of Trustees will purchase postal-savings bonds at par. Registered bonds sent to the board for purchase must be assigned to the "Board of Trustees, Postal Savings System."

BONDS LOST OR DESTROYED—Payment on registered bonds that have been lost or stolen may be stopped by notifying the Sec. of the Treasury (Division of Loans and Currency) at Washington. If coupon bonds are lost the Government does not undertake to protect the owner against the wrongful holder, but recognizes the bearer only. The owner has recourse only to such means as he could use to recover any other valuable property. When bonds, either registered or coupon, have been destroyed wholly or in part, or defaced, a claim may be filed wfth the Sec. of the Treasury under certain prescribed conditions for their replacement. Such claims will not be allowed for coupons which have been detached from coupon bonds.

Brooklyn ranks 3d among the 13,000 Postal Savings Bank branches in the U. S. The system was established in Brooklyn on Sept. 1, 1911. There was deposited on the 1st day $2,355 to the credit of 136 depositors. At the end of the 1st year there was on deposit in the Brooklyn Postal Savings Bank $489,063 to the credit of 8,374 depositors.

MAIL ST. SUBWAY.

By the terms of the deed which will permit of the building of the new subway under the Mail st. end of the General Post Office structure in Mhtn., the City of N. Y. gets the right of way across Federal property free of cost, on condition that it will provide for the support of the Post Office Bldg., and be responsible for any damages that may occur in the course of the subway work.

In addition, the City of N. Y., at an expense roughly estimated at $100,000, is to construct and maintain a platform over Mail st., so that during the subsurface excavation there will be no interference with the handling and transportation of mails to and from the General Post Office.

THE HALL OF FAME.

In March, 1900, Chancellor MacCracken of New York University, announced that $250,000 had been given that institution for a Hall of Fame of great Americans. The conditions were that 50 names might be chosen in 1900 and 5 more each succeeding 5 years through the 20th century. 100 electors from all of the 45 States were asked to make nominations and to indicate each one his choice of 50 names. Upon Oct. 1, 1900, it appeared that 29 names had received a majority of 51 votes. These were approved by the Senate (which has the power of veto), the number of votes for each being as follows: George Washington, 97; Abraham Lincoln, 96; Daniel Webster, 96; Benjamin Franklin, 94; Ulysses S. Grant, 93; John Marshall, 91; Thomas Jefferson, 91; Ralph Waldo Emerson, 87; Robert Fulton, 86; Henry W. Longfellow, 85; Washington Irving, 83; Jonathan Edwards, 82; Samuel F. B. Morse, 82; David G. Farragut, 79; Henry Clay, 74; Nathaniel Hawthorne, 78; George Peabody, 74; Peter Cooper, 69; Robert E. Lee, 68; Eli Whitney, 69; John J. Audubon, 67; Horace Mann, 67; Henry Ward Beecher, 64; James Kent, 65; Joseph Story, 64; John Adams, 62; Wm. E. Channing, 58; Gilbert Stuart, 62; Asa Gray, 51.

In 1904 the constitution of the Hall was amended to provide for choosing separately 10 names of famous American women in 1905, and 2 in each succeeding quinquennium; also 6 names of foreign-born Americans, and 1 in each succeeding election. Those chosen in the latter class are printed in capitals.

In Oct., 1905, the Senate received the ballots of 95 electors, of whom only 85 undertook to consider the names of women. A majority of 51 was demanded, but in the case of the names of women a majority of only 47. The following persons were found to be duly chosen: John Quincy Adams, 60; James Russell Lowell, 59; William T. Sherman, 58; James Madison, 56; John G. Whittier, 53; ALEX. HAMILTON, 88; LOUIS AGASSIZ, 83; JOHN PAUL JONES, 55; Mary Lyon, 59; Emma Willard, 50; Maria Mitchell, 48.

In Oct., 1910, the Senate received the votes of 97 electors; 51 votes were required for choice; 11 names were added, as follows: Harriet Beecher Stowe, 74; Oliver Wendell Holmes, 69; Edgar Allan Poe, 69; ROGER WILLIAMS, 64; James Fenimore Cooper, 62; Phillips Brooks, 60; William Cullen Bryant, 59; Frances E. Willard, 56; Andrew Jackson, 53; George Bancroft, 53, and John Lothrop Motley, 51.

Hereafter instead of one elector for each state, the rule requires one for each state, or each group of states, having 1,000,000 inhabitants. A new rule requires two-thirds of the electors in order to choose any name that is not indorsed by that group (among the 7 groups of electors), to whom it is sent in May of the year of election for special consideration and report. Any name in the final list of nominations made up June 1 so indorsed, may be chosen by a mere majority of the 100 electors. The electors will have the entire summer to weigh the merits of the candidates, but must return their final ballots by Oct. 1.

For the next election, in 1915, they will be requested to mark not more than 28 American men. They will also be requested to designate not more than 5 famous American men of foreign birth and not more than 11 famous American women, of either foreign or native birth.

Nominations for 1915 should be addressed to Chancellor Emeritus MacCracken, University Heights, New York City.

Sir John Tenniel, English cartoonist, died in London on Feb. 26. He was 93 years old. He was on the staff of Punch from 1851 to 1901.

TRACTION LINES OF ALL STATES.

Following is given a statistical record of the growth of the traction industry in each part of the United States, in the decade from 1902 to 1912. The figures, compiled and published in 1914 by the Bureau of the Census, indicate the relative progress of each of the States in this ten-year period, and give an indication of the extent to which the bulk of the nation's people have come to utilize the street railway lines for transportation. In studying these figures, it is well to keep in mind that 35 years ago there was no such thing as a traction industry in the United States; today there is such an industry, and it is of sufficient magnitude to warrant the inhabitants of the country in spending $2,000,000 every 24 hours for the service rendered.

As might be expected, New York State leads in the number of passenger-rides on traction lines. Nearly 2,500,000,000 fares and transfers were turned over to gatemen and conductors in this State in 1912. Illinois, which was second on the list, showed a total that was 1,000,000,000 smaller. Following are the returns of the States:

AUTOMOBILE REGISTRATIONS.

According to figures obtained by direct communication with the licensing authorities in 33 commonwealths, for the 1st 7 months of the year 1914, the number of automobiles registered increased from 1,065,000, recorded for the entire period of 1913, to 1,203,770, the total reported from Jan. to June 25, 1914. Motorists paid $8,386,103.69 in license fees during this period.

A substantial increase is noted in 26 States, New York still leading, far in advance, with Illinois retaining 2d place, while California, owing to her new law requiring re-registration of all cars, jumps from 7th to 3d place. Ohio drops back into 4th, followed by Pennsylvania, where the figures reach nearly the 100,000 mark.

(1st Figure following state is for 1914, 7 months; 2d is for year 1913.)

COUNTERBALANCES AND SCALES.

In accordance with Section 384A of the Code of Ordinances of the City of New York, all counterbalances or scales must comply with the following specifications:

Bearings and edges must be hard and firmly attached. Cast-iron pivots or edges cast on to the beams are not allowed. Edges or pivots must be sharp. Edges or pivots must bear upon the whole length of their working parts.

No instrument shall have removable parts, the removal of which shall affect the accuracy of the instrument unless the parts are such that the instrument cannot be used without them. If the instrument has interchangeable or reversible parts, the interchange or reversal shall not affect the accuracy of the instrument. All graduations shall consist of sharply defined lines so that the position of the sliding poises or indicators are clearly readable. All traveling or sliding poises may be provided with a means for adjustment and the adjusting material shall be securely enclosed. All instruments depending upon the leveling of the base shall have leveling screws such that they are covered with a cap.

When the bearings are shifted laterally on the knife edges the accuracy of the instrument shall not be affected. When in a scale with the pans above the beam there is an adjustment by means of a balancing box or shot cup, it shall be permanently fixed beneath the weight pan and shall only be large enough to contain loose material to an amount not exceeding 1% of the capacity of the instrument. The instrument shall give correct readings when a test weight equal to one-half the capacity of the scale is shifted on the pan to positions such that the distance from the center of the test weight to the center of the pan is two-thirds of the distance from the center to the edge of the pan. Scoop-Off-Scoop-On scales or scales where the scoop has to be counterbalanced by a ring or disc on the other pan or on the poise shall not be used. Attachments for adjusting the balance of the beam scale shall be permanently fastened and shall be so fixed that it cannot be tampered with readily, and the range or adjustment shall not be over 1% of the capacity of the scale. The minimum fall of the scoop or weight plate shall not be less than ⅜ of an in.

In a scale where a platform is provided the pointer shall show the same indication irrespective of where on the platform the weight is placed.

Note—To ascertain any day of the week, first look in the table for the year required and under the months are figures which refer to the corresponding figures at the head of the columns of days below. For example: To know on what day of the week July 4 was in the year 1895, in the table of years look for 1895, and in a parallel line, under July, is figure 1, which directs to column 1, in which it will be seen that July 4 falls on Thursday.

THE STATUE OF LIBERTY.

The Statue of Liberty was unveiled on Bedloe's Island in New York Harbor, Oct. 28, 1886. Soon after France became a republic a movement was inaugurated there to erect some suitable memorial to the fraternal feeling between the two governments. Frederic A. Bartholdi was the artist selected to do the work. $300,000 was raised in America to build the pedestal of this statue on Bedloe's Island. The statue was formally delivered to the American Minister at Paris, July 4, 1880.

The statue weighs 450,000 pounds or 225 tons. The bronze alone weighs 200,000 pounds. 40 persons can stand comfortably in the head, and the torch will hold 12. Height of statue from base to torch is 151 ft. 1 in., and from foundation of pedestal to torch is 305 ft. 6 in: Number of steps from pedestal to head is 154. Ladder leading up through the extended right arm to torch has 54 rounds.

Boats leave the Battery every hour on the hour from 8 A.M. to 8 P.M., returning on the half hour. Excursion fare 25 cents. Admission free to statue.

CIVIL SERVICE INFORMATION.

FEDERAL.

Officers—Three commissioners are appointed by the President to assist him in classifying the government offices and positions, formulating rules and enforcing the law. Their office is in Washington, D. C. The chief examiner is appointed by the President with the advice and consent of the Senate, to secure accuracy, uniformity and justice in the proceedings of the examining boards. The secretary to the commission is also appointed by the President.

General Rules—The fundamental rules governing appointments to government positions are found in the civil service act itself. Based upon these are many other regulations formulated by the commission and promulgated by the President from time to time as new contingencies arise. The present rules were approved March 20, 1903, and went into effect April 15, 1903. In a general way they require that there must be free, open examinations of applicants for positions in the public service; that appointments shall be made from those graded highest in the examinations; that appointments to the service in Washington shall be apportioned among the states and territories according to population; that there shall be a period (six months, or by agreement between the comm'ns and the department, one year) of probation before any absolute appointment is made; that no person in the public service is for that reason obliged to contribute to any political fund or is subject to dismissal for refusing to so contribute; that no person in the public service has any right to use his official authority or influence to coerce the political action of any person. Applicants for positions shall not be questioned as to their political or religious beliefs and no discrimination shall be exercised against or in favor of any applicant or employee on account of his religion or politics. The classified civil service shall include all officers and employees in the executive civil service of the U. S., except laborers and persons whose appointments are subject to confirmation by the Senate.

Examinations—These are conducted by boards of examiners chosen from among persons in government employ and are held twice a year or oftener if the needs of the service require it in all the states and territories at convenient places. They can always be learned of by applying to the commission or to the nearest post office or custom house. Applicants are advised to write to the commission in Washington for the "Manual of Examinations," which is sent free. It is revised semi-annually to Jan. 1 and July 1, containing the spring and fall examinations. Full information is given as to the methods and rules govering examinations, certification for and chances of appointment, and as far as possible it outlines the scope of the different subjects of general and technical examinations. These are practical in character and are designed to test the relative capacity and fitness to discharge the duties to be performed. It is necessary to obtain an average percentage of 70 to be eligible for appointment, except that applicants entitled to preference because of honorable discharge from the military or naval service for disability resulting from wounds or sickness incurred in the line of duty need obtain but 65 per cent. The period of eligibility is one year.

Qualifications of Applicants—No person will be examined who is not a citizen of the United States; who is not within the age limitations prescribed; who is physically disqualified for the service which he seeks; who has been guilty of criminal, infamous, dishonest or disgraceful conduct; who has been dismissed from the public service for delinquency or misconduct or has failed to receive absolute appointment after probation; who is addicted to the habitual use of intoxicating liquors to excess; who has made a false statement in his application, or who has been discharged from the army or navy for desertion under section 1998 R. S. The age limitations in the more important branches of the public service are: Post office, 18 to 45 years; rural letter carriers, 18 to 55; internal revenue, storekeeper, gauger and storekeeper-gauger, 21 years and over; other positions, 18 years or over; railway mail, 18 to 35; lighthouse, minimum 18 years for all positions except those requiring a license from Steamboat Ins. Service, for which minimum age limit is 21, maximum, 40 years for officers of tenders, except cadet officer and cadet engineer, for which maximum age limit is 25 years, except for those already in lighthouse service, for which it is 30 years. There is no maximum age limit for other positions in this service. Life saving, 18 to 45; general departmental, 18 and over; clerks, draftsmen, bookkeepers, stenographers and typewriters, 18. These age limitations are subject to change by the commission. They do not apply to applicants of the preferred class. Applicants for the position of railway mail clerks must be at least 5 feet 5 inches in height, exclusive of boots or shoes, and weigh not less than 130 pounds in ordinary clothing and have no physical defects. Applicants for certain other positions have to come up to similar physical requirements.

Method of Appointment—Whenever a vacancy exists the appointing officer makes requisition upon the civil service commission, or its representatives, the district secretaries, for a certification of names to fill the vacancy, specifying the kind of position vacant, the sex desired and the salary. The commission thereupon takes from the proper register of eligibles the names of three persons standing highest of the sex called for and certifies them to the appointing officer, who is required to make the selection. He may choose any one of the three names, returning the other two to the register to await further certification. The time of examination is not considered, as the highest in average percentage on the register must be certified first.

Removals—No person can be removed from a competitive position except for such cause as will promote the efficiency of the public service and for reasons given in writing, with opportunity for written reply. No examination of witnesses nor any trial shall be required except in the discretion of the officer making the removal.

Salaries—Entrance to the departmental service is usually in the lowest grades, the higher grades being generally filled by promotion. The usual entrance grade is about $900, but appointments may be made at $840, $760 or $600.

STATE.

Detailed information by addressing "State Civil Service Commission, Albany, N. Y."

The State Civil Service Rules provide for:

(a) Exempt Class—Includes deputies of principal officers; secretaries of boards or commissions; clerks and deputy clerks of courts; all other positions for filling of which examinations are found not to be practicable.

(b) Non-Competitive Class—Includes minor positions in institutions where competition is impracticable; also a few subordinate positions in the State Departments.

(c) Labor Class—Includes unskilled laborers, skilled laborers and positions of similar character not included in competitive or non-competitive classes.

Examiners—Appointed by State Civil Service Commission. Work under direction of Chief Examiner.

Applications—Applications for positions in competitive class must be executed in applicant's handwriting on blank form supplied by and forwarded to "State Civil Service Commission, Albany, N. Y.," but not until examination has been ordered.

Examinations—Held as the needs of the service require, usually in series at intervals of five or six weeks during the year. Examinations usually in writing, each subject rated on basis of 100. Every candidate who receives a rating of at least 60 per cent. on each subject of the examination and general average of not less than 75 per cent. is eligible.

Preference—Only honorably discharged soldiers and sailors from army and navy of United States in the Civil War are entitled to preference in appointment. Preference for retention in case of removals is granted to Civil War veterans and honorably discharged soldiers, sailors or marines who served in Spanish War, or Philippine Insurrection prior to July 4, 1902, and to veteran volunteer firemen. Except as above indicated, the power of removal is unlimited.

Reinstatement—Allowed within one year after separation from service, if separation was through no delinquency or misconduct.

Appointment—Prospects of appointment are very good in case of applicants who are qualified for technical positions, as in these examinations the competition is limited. Stenographers and typewriters are in demand and ex-

aminations are held annually in May, and applications may be secured after Jan. 1. Fair prospects of appointment for male and female bookkeepers at salaries of $720, or $600 and maintenance, in institutions. But few appointments are made from the general clerk examination, which is held not oftener than once in two or three years, and in which there is always abundant competition. Appointments frequently made to position of junior clerk, at salaries of $30 and $40 month.

State Civil Service Commission.

The State Civil Service Commission consists of three members, appointed by the Governor and with the advice of the State Senate, not more than two of them to be adherents of the same political party. The salary is $5,000 a year, with necessary traveling expenses, term of office 6 yrs. The commission has power to appoint a secretary, a chief examiner and such other officers, clerks and examiners as may be deemed necessary. The commission has supervision of the administration of the civil service law and rules in the fifty-two cities of the state. It has charge and control of examinations and appointments in the service of the state, the counties of Albany, Chautauqua, Erie, Kings, Monroe, Nassau, New York, Niagara, Oneida, Onondaga, Orange, Queens, Rensselaer, Richmond, Suffolk, Ulster and Westchester, and the Villages of Batavia, Ossining, Peekskill, Port Chester, Saratoga Springs and White Plains. During the year 1913 14,332 persons were examined and upward of 2,000 appointments were made to competitive places. On Jan. 1, 1914, there were 18,635 positions, not including laborers, subject to the jurisdiction of the commission. These positions were classified as follows: Unclassified service, 1,153; classified service, A, exempt, 1,163; B, competitive, 9,410; C, noncompetitive, 6,409.

MUNICIPAL.

Detailed information at the Municipal Civil Service Commission, Municipal Bldg., Mhtn.

Offices and positions are of four classes:

Exempt Class—Includes all places not subject to examination or registration.

Non-Competitive Class — Comprises positions not in exempt, or labor classes, and those not included in the competitive class.

Competitive Class — Comprises all positions subject to competitive examination.

Labor Class—Comprises the labor service.

Examining Board—Board of Examiners, consists of a Chief Examiner and others, appointed by the Municipal Commissioners. No examiner can be a public officer.

Applications — Applications for positions in competitive class must be filed in applicant's handwriting, addressed to the secretary of the Municipal Civil Service Commission of New York City, but not until the examination has been ordered and advertised. All candidates must be citizens of the U. S.

Examinations—All examinations are in writing, except such as refer to expertness or physical qualities, as otherwise provided. In all examinations each subject is marked on scale of 100. No question relating to political or religious opinions can be asked. No appointment to or removal from an office shall be in any manner influenced by such opinions or affiliations. Every candidate who receives a general average marking of not less than 70 per cent., and who has received not less than 20 per cent. in any required subject, or not less than 75 per cent. in any technical subject, when the examination is for a position of scientific, professional or technical nature, shall be eligible for certification and appointment. Candidates for the position of patrolman to be eligible for appointment must obtain an average of not less than 70 per cent. on the mental test and 70 per cent. on physical development and strength. Candidates for the position of fireman who obtain an average of over 80 per cent. on physical development and strength and a final average of 75 per cent. shall also be eligible for appointment.

MOTOR VEHICLES IN N. Y. STATE.

The tremendous growth in the use of motor vehicles in N. Y. State is demonstrated by the registration and license figures together with the total receipts for the past 12 years. In the early years, however, annual registration was unnecessary, so that the figures up to 1910 do not show the total number of machines in operation, only those registered in each year. In 1910, there was a re-registration of all machines. Official figures for registration of cars, licensing of chauffeurs, with total receipts are:

Yr.	Own-ers.	Chauf-feurs.	Re-ceipts.	Yr.	Own-ers.	Chauf-feurs.	Re-ceipts.

L. I. SCHOOL OF AGRICULTURE.

The New York State School of Agriculture, provided for by the State Legislature of 1912, will be located at Lower Melville, near Farmingdale, L. I. 314 acres have been purchased at an average of $306 per acre. The Board of Trustees are: H. A. Reeves of Greenport, Pres.; E. H. L. Smith of St. James, Vice-Pres.; B. F. Yoakum of Farmingdale, J. H. Carll of Baldwin, I. H. Leveen of L. I. City, J. F. Murray of the Bronx, Dr. B. Flesch of Manhattan; A. A. Johnson, Dir.

The Legislature has appropriated $440,000 for the buildings and equipment. Plans, which have been adopted, provide for buildings that will cost approximately $300,000. When the buildings have been completed, the trustees expect to accommodate about 800 resident students and 400 day students. Much of the manual labor in getting the grounds into workable shape will be left to the boys. The girl students will do all of their own work and learn agriculture and housekeeping. The raising of vegetables, and especially those favoring Long Island soil, will be one branch of the school work. Other branches will be animal husbandry and dairying, horticulture, agronomy, poultry raising, and for the girls domestic science.

THE RHODES SCHOLARSHIPS.

The Rhodes Scholarships at Oxford Univ., England, were established under the will of Cecil Rhodes, the So. African millionaire. He died at Cape Town, Mar. 26, 1902, and his will, dated July 1, 1899, directed the trustees to apply a part of his fortune, about $10,000,000, to the establishment of a fund for the support of a certain number of scholarships to cover the cost of a 3 years' scholarship at Oxford. He allotted 100 to the U. S. (2 to each state and territory), 15 to Germany and from 3 to 9 each to the several British Colonies. In this country candidates must have completed in a satisfactory manner at least 2 years' work in a college of liberal arts and sciences. The limits of age are 19 and 25. The student must be a U. S. citizen with 5 years' domicile and be unmarried. The annual allowance to each student is £300 (about $1,500), payable in quarterly installments, and is expected to meet the expenses of the year for both term time and vacation. The 1st payment is not made until a st ient has gone into college residence at Oxford. Heretofore qualifying examinations, which are not competitive, were held in October in each 2 years out of 3, but beginning with 1916 scholars will be chosen from the U. S. annually from two-thirds of the states. The 16 states to be omitted in 1916 are Arizona, Delaware, Florida, Idaho, Louisiana, Montana, Nevada, New Mexico, North Carolina, North Dakota, Oklahoma, South Carolina, South Dakota, Utah, West Virginia and Wyoming.

Scholars from these states will be selected in '17 and another 16 states will be omitted.

The number of scholars in residence at Oxford in the course of the academic year 1912-13, was 175, of whom 73 were from the Colonies of the Empire, 88 from the U. S., and 14 from Germany.

Among the Oxford distinctions gained by scholars during the year (1912-13), were the following: C. S. Brice, South Carolina, Vinerian Scholarship in Law; H. C. Brownell, Vermont, Davis Chinese Scholarship; A. L. Burt, Ontario (1) divided the Beit Prize (for an essay on "Proposals in the direction of a closer union of the Empire before the opening of the Colonial Conference of 1887") with L. B. Naymier; (2) was awarded the Robert Herbert Memorial Prize; W. C. Greene, Massachusetts, Charles Oldham Prize (for an essay on "The sea in the Greek Poets"); A. P. Kelso, Pennsylvania, Matthew Arnold Memorial Prize (for an essay on "Matthew Arnold's attitude toward the nations and literatures of France, Germany and Italy"); W. H. Shepardson, New York, Gladstone Memorial Prize (for an essay on "The causes which led to the revolt of the American Colonies in the reign of George III in the light of recent research"). W. J. Bland, Ohio, was elected to the presidency of the Oxford Union Soc. for the summer term, 1913. Information in regard to particulars can be secured at any college, or from F. J. Wylie, Oxford secretary to the Rhodes Trustees, Oxford, Eng., or the secretary to the Rhodes Trust, 17 Waterloo place, London, S. W.

MAYOR MITCHEL SHOT AT.

An old man named Michael P. Mahoney, with fancied grievances against the city administration, fired a shot on the afternoon of April 17 at Mayor John Purroy Mitchel as the Mayor, Corporation Counsel Frank Polk—whom the bullet struck—Police Commissioner Arthur Woods and Tax Commissioner George V. Mullan were on the point of starting off in an automobile from the City Hall for luncheon.

The bullet entered the left cheek of Mr. Polk, who was taken to the New York Hospital. The wound was not a dangerous one. Mahoney was afterwards found insane and was committed.

UNITED STATES BANKRUPTCY LAW.

The United States Bankruptcy Act was passed July 1, 1898. Aub's Bankruptcy Law, Eagle Library No. 31, contains the complete act, with all amendments and tabulated index. Price, $1. The sections below give some very important points regarding the law:

Sec. 4. Who may become bankrupts—(a) Any person, except a municipal, railroad, insurance or banking corporation, shall be entitled to the benefits of this act as a voluntary bankrupt. (b) Any natural person (except a wage-earner or a person engaged chiefly in the farming or the tillage of the soil), any incorporated company; and any money, business or commercial corporation, except a municipal, railroad, insurance or banking corporation, owing debts to the amount of $1,000, or over, may be adjudged an involuntary bankrupt, upon default or an impartial trial, and shall be subject to the provisions and entitled to the benefits of this act.

The bankruptcy of a corporation shall not release its officers, directors or stockholders, as such, from any li bility under the laws of a state or territory or of the United States.

Sec. 7. Duties of bankrupts—(a) The bankrupt shall (1) attend the first meeting of his creditors, if directed by the court or judge thereof to do so, and the hearing upon his application for a discharge, if filed; (2) comply with all lawful orders of the court; (3) examine the correctness of all proofs of claims filed against his estate; (4) execute and deliver such papers as shall be ordered by the court; (5) execute to his trustee transfers of all his property in foreign countries; (6) immediately inform his trustee of any attempt by his creditors or other persons to evade the provisions of this act coming to his knowledge; (7) in case of any person having to his knowledge proved a false claim against his estate, disclose that fact immediately to his trustee; (8) prepare, make oath to, and file in court within ten days, unless further time is granted after the adjudication of an involuntary bankrupt, and with the petition of a voluntary bankrupt, a schedule of his property, showing the amount and kind of property, the location thereof, its money value in detail, and a list of its creditors, showing their residences, if known (if unknown that fact to be stated), the amount due each of them, the consideration thereof, the security held by them, if any, and a claim for such exemptions as he may be entitled to, all in triplicate, one copy of each for the clerk, one for the referee and one for the trustee; and (9) when present at the first meeting of his creditors, and at such other times as the court shall order, submit to an examination concerning the conducting of his business, the cause of his bankruptcy, his dealings with his creditors and other persons, the amount, kind and whereabouts of his property, and in addition, all matters which may affect the administration and settlement of his estate; but no testimony given by him shall be offered in evidence against him in any criminal proceedings. Provided, however, that he shall not be required to attend a meeting of his creditors, or at or for an examination at a place more than 150 miles distant from his home or principal place of business, or to examine claims except when presented to him, unless ordered by the court, or a judge thereof, for cause shown, and the bankrupt shall be paid his actual expenses from the estate when examined or required to attend at any place other than the city, town or village of his residence. Discharge in bankruptcy relieves the bankrupt from all his provable debts, except taxes due the U. S., state, county or municipality in which he resides, liabilities for money or property obtained by false pretences, wilful and malicious injury to persons or property, alimony, debts created by fraud or misappropriation, etc. The U. S. Court of Appeals, in the case of Keppel, trustee, against the Tiffin, Ohio, Savings Bank, the U. S. Supreme Court laid down a new principle in bankruptcy proceedings on April 3, 1905. This was that a creditor who has received a merely voidable preference, and who has in good faith retained such preference until deprived thereof by the judgment of a court upon a suit of the trustee, might thereafter prove the debt so voidably preferred. Justices Harlan, Brewer, Brown and Day dissented, and the last named in his opinion said that the Bankruptcy Law contemplated that a secured creditor who held a security voidable under the law must make his choice while he yet had something to give for the privilege of being placed in the class which should share in the equal distribution of an estate. To permit him to prove his claim as a general creditor would tend to defeat the purpose of the act.

VOLCANOS AND EARTHQUAKES.

Lassen Peak, the old California volcano, which looms 10,437 ft. above the sea in the Sierra Nevada Range on the boundary bet. Plumas and Shasta Counties, and has always been believed to be extinct, became wide awake on May 30, 1914. It was in eruption up to July 1. Volcanic ash fell at Macomber Flats, 13 miles distant. Deaths were few and injuries slight. On Sept. 21 the volcano was in eruption for the 48th time, being accompanied by an earthquake.

N. Y. City, and particularly the Borough of Bkln., was visited at 1:33 p.m., on Feb. 1, 1914, by an earthquake disturbance that shook cities and towns up-State more violently and manifested itself even beyond Montreal, Washington and St. Louis.

An earthquake which caused much alarm but little damage shook Bkln. on Aug. 10, 1884. It occurred shortly after 2 o'clock in the afternoon, and caused the most substantial structures to quiver.

On May 7, 1902, 2,000 lives were lost through eruption of La Soufriere volcano, St. Vincent Isl. On May 8, 1902, 26,000 lives were lost on Martinique Isl., by eruption of Mt. Pelee.

All the countryside bet. Mt. Etna and the Gulf of Catania, on May 8, 1914, was devastated by an earthquake which reduced a dozen villages to ruins and caused 200 deaths and many injuries. In 121 A. D., Catania was partly destroyed by an eruption of Mt. Etna and in 1169 again suffered severely by an earthquake.

On Oct. 4, 1914, the towns of Isbarta and Burdur, in the Province of Konia, Asiatic Turkey, were severely damaged by an earthquake. On Oct. 3, 1914, an earthquake shock was felt at Fort de France, Island of Martinique.

In 1669, during an eruption of Mt. Etna, a great stream of lava flowed toward Catania, but its course was diverted, and the town was saved. Later in the same century, in 1693, when the whole of the island of Sicily was affected by an earthquake, Catania was destroyed. The present town, the most populous in Sicily, has been erected since that date.

In the earthquake and tidal wave at Messina and Calabria on Dec. 28, 1908, official figures gave the number of deaths as 77,283, but it was variously estimated that from 150,000 to 200,000 people lost their lives, while the damage to public and private property amounted to about $1,000,000,000.

The most shaken countries of the world are Italy, Japan, Greece, So. Amer. (the Pacific Coast), Java, Sicily and Asia Minor. The lands most free from these convulsions are Africa, Australia, Rus. a, Siberia, Scandinavia and Canada. As a rule, where earthquakes are most frequent they are most severe. But to this general statement there are exceptions—India shocks, though less numerous, being often very disastrous. Loss of life in many cases depends, however, on density of population rather than on the intensity of the earth movement.

Major De Montessus de Balore, after years of labor, has drawn up a catalogue of 130,000 shocks, of which trustworthy details have been procured, and this indicates with some scientific accuracy how the symptoms of seismic activity are manifested over the earth's surface. The period of observation includes generally the last 50 years; but there is no reason to suppose that a longer time would materially affect the proportionate numbers. The following figures show area and number of earthquakes as computed by M. De Montessus de Balore:

Scandinavia, 646; British Isles, 1,139; France, 2,793; Spain and Portugal, 2,656; Switzerland, 3,895; Italy, 27,672; Holland and No. Germany, 2,326; Sicily, 4,332; Greece, 10,806; Russia, 258; Asia Minor, 4,451; India, 813; Japan, 27,562; Africa, 179; Atlantic Islands, 1,704; U. S., Pacific Coast, 4,467; U. S., Atlantic Coast, 937; Mexico, 5,586; Central Amer., 2,739; West Indies, 2,561; So. Amer., 8,081; Java, 2,155; Australia and Tasmania, 83; New Zealand, 1,925.

TITANIC CASES.

By the decision of the U. S. Supreme Court, written by Justice Holmes, and handed down on May 25, 1914, the burden of proving criminal negligence upon the part of the owners of the steamship Titanic is placed upon the claimants, who have brought suits in the Amer. courts for damages for relatives or property lost with her. Legal recourse is open to these persons by suing in the courts of Gt. Britain, but the British law as to the proving of negligence by the vessel's owners is stricter than the Amer. law. The effect of the decision, according to the company's lawyers, was to limit the total liabilities of the ship's owners to $97,000, the value of its salvage, and the amount received for carrying its passengers and freight, unless, of course, the claimants are able to prove their contention that the Titanic's loss was directly due to negligence of her owners.

Nearly 500 claims, aggregating $14,000,000, have been filed against the Oceanic Steam Navigation Co., owners of the Titanic, in this country, while the total claims against the company on account of the Titanic's loss is figured at about $30,000,000.

The Titanic was a British ship, flying the British flag, and under the British law. The rights of passengers under the statutes of the U. S. cannot be broadened.

FRATERNAL, CO-OPERATIVE FIRE & ASSESSMENT LIFE & ACCIDENT INSURANCE COS.

Following is a general summary of financial returns of Fraternal Beneficiary Orders or Societies, Co-operative Fire Insurance Corporations and Assessment Life and Accident Associations doing business in New York State for the year ending Jan. 1, 1914.

FRATERNAL BENEFICIARY ORDERS.

	1913.	Increase.
Assets	$132,961,600	$11,437,323
Liabilities	17,464,151	1,119,241
Received from members	81,193,089	721,721
Total income	88,790,947	2,144,858
Claims paid	65,721,192	1,629,847
Total disbursements	76,781,995	2,304,548
Total insurance in force	6,200,064,879	37,044,327
Insurance in force in New York State	612,343,794	*335,433

In connection with the above stated "liabilities" of fraternal orders, attention is called to the fact that at the present time fraternal orders carry no statutory policy reserve, which accounts for the large excess of "assets" over "liabilities."

CO-OPERATIVE FIRE CORPORATIONS.

PUBLIC SCHOOLS OF THE CITY OF NEW YORK.

HEADQUARTERS, Park av. and 59th st., Mhtn. Bkln. Office, 131 Livingston st.

Public Schools of N. Y. are free to all persons bet. 4 and 21 yrs. of age, except that no child under 6 yrs. shall be received except in kindergarten classes. Money for schools is raised by taxation in two funds—special schl. fund and general schl. fund. General fund is for payment of salaries of teachers and the supervising force; special fund, all money not comprised in general fund.

THE BOARD OF EDUCATION.

Bd. of Education consists of 46 members appointed by the Mayor Jan. 1, for a term of 5 yrs. It consists of 22 members from Mhtn., 14 from Bkln., 4 from Bronx, 4 from Queens and 2 from Richmond, who serve without pay and can hold no office of emolument under county, State or municipal government, except notary public, commissioner of deeds, or offices in the National Guard. Its members may be removed by the Mayor after a hearing for neglect or misconduct, and the Mayor has power to fill all vacancies. It has management and control of the public schls. and public schl. system of the city, and is a corporation. The board has the management of the public schl. teachers' retirement fund. It makes an annual report to the Mayor bet. Aug. 1 and Nov. 30, on conditions for the preceding schl. year, and also reports on the amount of money expended during the preceding year.

SALARIES are fixed by the Bd. of Education in compliance with the State law. The Bd. of Estimate and Apportionment is required to appropriate for the General Schl. Fund for payment of salaries an amount equivalent to 3 mills on every dollar of assessment valuation of real and personal estate in the city liable to taxation. The title to all property owned or acquired for educational purposes is vested in the city.

BUREAU OF ATTENDANCE.

154 E. 68th, Mhtn.

Statutory Title—Bureau of Compulsory Education, schl. census, child welfare. Dir., J. W. Davis, $6,000; Asst. Dir., G. H. Chatfield, $4,500. Est. by act of the Legislature effective May 1, 1914 (Chap. 470-471, Laws of 1914). The former Permanent Census Board was abolished and its functions, personnel and equipment taken over by the Bd. of Education. Duties of the Bureau of Attendance are to enforce the compulsory education law, the newsboy law (with aid of police), and take the schl. census, and concern itself generally with matters affecting child welfare. To enforce the compulsory education law the city has been divided into 13 attendance districts, 4 in Mhtn., 2 in Bronx, 4 in Bkln., 2 in Queens and 1 in Richmond. A dist. supervising attendance officer has charge in each district. Each such officer is assigned for a period of 1 yr. by the Bd. of Superintendents. A chief attendance officer is in general charge of the operating staff, under assignment for 1 yr. Hearings for commitment of children to the truant schls. with the consent of the parents are conducted by the bureau, and in general will be held by the chief attendance officer and two supervising attendance officers. The director has sole power to commit and parole truant and delinquent children as the result of such hearings. The schl. census features of the law require the bureau to maintain a permanent register of all children Bet. 4 and 18 yrs., showing residence, name or names of parents or guardians, age, name or number of schl. attended, or reason for non-attendance, and nature and place of employment, if employed. The census is amended from time to time. The bureau acts on all violations of the compulsory education and child labor law discovered by the taking of the census, reports to the children's societies cases of parental neglect, refers cases of poverty and destitution to the charitable organizations, and reports the names of children physically or mentally defective to the educational officers especially charged with their education. It compiles information concerning the child population of each block. In the enforcement of the newsboy law, it issues permits and badges, and maintains a street patrol to prevent the selling of papers by children at unauthorized hours, and by children not licensed. All boys 12-14 require permits. Chief Clerk, R. J. Suits, $2,100; Stenographer, Mary O'Connell, $1,500; Clerks, Matilda Weymann, Evelyn Bortell, R. F. Graves, J. H. Smyth, $1,200; 43 other clerks, $300 to $1,050. Chief Attendance Officer, J. F. McManus, $2,400.

PUBLIC SCHOOLS OF THE CITY OF NEW YORK—TEACHERS' LICENSES—*Continued.*

No married woman can be appointed unless her husband is incapacitated from disease to earn a livelihood, or has continuously abandoned her for not less than 1 yr. prior to date of appointment; proof satisfactory to the Bd. of Supts. to be furnished.

Licenses are issued by the City Supt. for 1 yr., and may be renewed by him without exam. if work of the holder is satisfactory to him for 2 successive yrs., and at the close of the 3d yr. of continuous successful service, he may make the license permanent. Sub. licenses are issued for 1 yr., subject to renewal by City Supt.

All applicants must present evidence of good moral character and of sound physical health. The evidence of health consists of a certificate issued by a physician of the Bd. of Ed. The physical exam. does not apply to applicants for license as eve. sch., vacation sch. and playground teachers.

A license, except prin. and sub. license, is issued with condition that, if holder does not teach as a regular (not sub.) teacher in the public sch. of New York during a period of 3 yrs., it becomes void, but the Bd. of Exam. has authority to grant a renewal.

Above and subsequent qualifications do not apply to persons licensed prior to Mar. 1, 1903, to teach in eve. schs., vacation schs., playground and recreation centers.

Any of the substitute licenses established may be granted to a person eligible for exam. for a corresponding regular license, where it does not conflict with other provisions of the by-laws.

Qualifications for Appointments.

In the following qualifications for appointments, college or university, refers only to such as are recognized by the Regents of the Univ. of the State of N. Y. or the State Comr. of Education, and exams. refer only to such as are satisfactory to the City Supt. and Bd. of Exams. Institutions or academies referred to in connection with N. Y. City high schs. must have an equivalent rating therewith. The abbreviation "exp." means successful experience in teaching in the branches to which it refers. In other abbreviations the meaning is obvious.

ELEMENTARY SCHOOL LICENSES.

Substitute Licenses—One of following qualifications: 1½ yrs. work in a City Training or Normal Sch. and the passing of the exam. for license No. 1; holding of a city public sch. license and 2 yrs. exp.; college or normal sch. graduation; high sch. graduate and 2 yrs. exp. in graded sch. or 1½ yrs. in St. Normal Sch. within city; eligible for license No. 1; a St. certificate or a County Com. 1st grade certificate.

Kindergarten—Graduation from high sch. or its equiv., and 2 yrs. prof. training, 1 of them in principles and practices of kindergarten; or 1 yr. prof. training in kindergarten and 2 yrs. exp.

License No. 1—One of the following qualifications: (a) Graduation from high sch. or acad. of 4 yrs. course (if graduated before 1899, 3 yrs.); or from Teachers Train. Sch., 2 yrs. course; or 1 yr. in training sch. with 1 yr. exp.; or graduation from city train. sch., entering prior to Mar., 1902. SPELLING BEE, HONOR ROLL STUDENTS AND VOCATIONAL SCHOOLS.

During the year 1914 The Brooklyn Eagle did more for the welfare of the public schools than any other outside organization. Early in the year it held "The Brooklyn Eagle Spelling Bee," which attracted greater attention than anything that had been done for the schools anywhere in this country. Previous to the Brooklyn and Long Island Spelling Match, held in the Opera House of the Brooklyn Academy of Music, 50,000 children of the upper grammar grades took part in the preliminary class and school spelling matches. A committee of Brooklyn principals prepared a list of 1,000 words, which The Eagle printed and supplied in such quantities as the schools participating needed. The children learned these words, and then teachers held class spelling matches. The champions of each class met for the school match, and from them the school champion was selected. Every one was spelling, pupils, teachers and parents. On the evening of Jan. 23, 1914, 130 school champions presented themselves. The Opera House was crowded with school officials and parents. There were present representatives of the parochial schools of the Roman Catholic Church, which also took part in the competition for the gold medal and the championship of Bkln. and L. I. It was a notable occasion, and gave a stimulus to spelling which nothing else could do. Ambrose A. Blaney of St. Augustine's Parochial Sch. won the Eagle gold medal and the championship; Eugene O'Reilly of St. James' Parochial Sch. and Gluzela Greenberg of P. S. No. 5 tied for 2d prize.

During the year The Brooklyn Eagle also published each month the honor rolls of the public schools of Bkln. and Queens, and on November 13, 1914, over 30,000 names were printed, covering nine pages of the paper. As a reward to those who met the requirements of The Eagle and the schools the children were given tickets to attend certain games of the Bkln. Natl. Baseball League in June, and on the last day of school The Brooklyn Eagle Honor Roll Field Day was held at which over 15,000 children were present. The elementary school champions on the track and the champion baseball teams of Bkln. and Queens took part. The bands of the Roman Catholic Orphan Asylum and of the Hebrew Orphan Asylum were present, and played for the pupils who were better off. It was a great occasion.

But The Eagle is better pleased with the result of the offer it made at the beginning of the school year, 1913-14. It promised a silver honor medal to all pupils whose names were on the honor roll for the entire year. The requirements were that a pupil had to have A in effort, B plus or better in proficiency, A in conduct, and perfect attendance, neither absent nor late, although an exception was made in the case of absences on religious holy days. Last June The Eagle was called upon to give out 2,500 honor medals. The same offer has been made for the current year. Those who won medals last year will be given a silver bar, for the second year. Principals and teachers agree that The Eagle Honor Roll is helping materially in the uplift of the schools.

Throughout the year The Eagle, through its "School and College Dept.," informs its readers of what is being done in the schools and by the Bd. of Education. Every one who desires the welfare of the community takes an interest in the schools, which are educating the future citizens of the Republic. The schools are working out problems such as they never before attempted. One of these is the education of the hand as well as of the mind, and the preparation for wage-earning which the majority of children will be called upon to do.

The year 1914 will be marked as that in which prevocational training for the children of the 7th and 8th years was introduced in the public schools of the City of N. Y. It is only in the experimental stage, however, and whether it will become a permanent part of the school curriculum depends on how it attracts and holds the pupils. The tendency where it has been already tried is for pupils, after they have acquired a certain amount of knowledge of a trade to leave school and seek a "job." This has been the experience in trade schools conducted by employers.

In these prevocational schools the pupils are not supposed to learn trades. The design is to ascertain the bent of the children, and then to educate them along those lines. In the 2 schools in Mhtn. and Bkln. which have been selected for the experiment there has been installed various "shops." For the boys there are these: Printing, plumbing, woodworking, machine, electric wiring, sheet metal and at No. 5, Bkln., a bookbinding shop. For the girls: Dressmaking, millinery, novelty work and the use of power machines. The power machines are for sewing, embroidery, hemstitching, etc. The girls will also be taught bookbinding. The novelty work consists of fancy boxmaking, paper lamp shades, sample books, etc. They will also learn homemaking in all its branches, including cooking and nursing.

Beside the prevocational schools are trade schools and vocational schools, for the education of older pupils, and with a somewhat different object, that of learning trades. There are no such schools as yet in either Bkln. or Queens. In Mhtn. there are the Manhattan Trade School for Girls, the Trade School for Boys and the Murray Hill Trade School which is also for boys. A trade school is to be organized at the Cary bldg., on Mhtn. Bridge Plaza, in Bkln., in 1915.
